AMRAX

SENIOR UNITY ENGINEER (F/M/X)

Salzburg or Vienna
Full time

We are AMRAX™.
We create AI driven e-commerce solutions for interior design.

We are an extraordinary team of young scientists, coders and marketing experts working on AI-based digital content creation and marketing. With our AMRAX App, we aim to revolutionize the field of interior design and e-commerce. A positive corporate culture with humility and respect for each other and our customers is in our DNA and we are always looking for creative ideas and solutions. As a Start-Up founded in 2020, we offer exciting challenges such as research-driven development work at the forefront of 3D reconstruction and Deep Learning. We are now looking for a Senior Unity Engineer to support our rapidly growing Team.

RESPONSIBILITIES

- Develop a 3D framework for photorealistic interior visualization using cutting-edge technology

- Ensure the quality of the software by writing unit and integration tests

- Work collaboratively with deep learning engineers and researchers to architect, develop, maintain and optimize different product components

- Plan and implement scalable mobile architectures

- Develop clean, elegant, well-commented and reusable code which is easy to maintain and extend

SKILLS

- Technical education – University, FH, HTL with focus on computer science / software development or equivalent experience

- Self-driven personality that is looking forward to advocating ideas in an agile setting

- 3+ years professional experience coding C# within the Unity game engine

- Desire for a career in programming with a commitment to continually refining your craft

- Strong desire for exploring, evaluating and promoting new technologies

Impactful Work   **Next Gen Tech**   **Culture of personal growth**   **Flexible working hours**   **Base Salary € 3.800***   **Parking lot car and bike**

*The actual salary for this position is based on professional qualifications and experience.
