Insights. Whenever you need it.

The data Ubiqisense provides has a high granularity and accuracy, giving you great insights into the behavior of your workplace.

Optimize your workplace, increase employee performance, and reduce costs.

# Instant overview

Through Ubiqisense's smart sensors, you can display both real-time and historical data to help your organization add value where it is most needed.

Why not show visitors or employees where they may find an available workstation or meeting room?
