OUR VISION

Inspired by the legendary Shiba Inu project ShibaBurn daringly enters the world of digital currency. A new kind of money, programmable currency; Hard money, backed by it's own consensus mechanism.

A digital economy is emerging from Blockchain, and we may stake our place inside of it firmly with vigilance.

ShibaBurn is a BEP-20 token on the innovative Binance Smart Chain. We choose this blockchain to build our contract on due to it's lightning fast block time and incredibly low fees. Backed by the world renown Cryptocurrency exchange Binance, the Binance Smart Chain currently at the time of writing holds its place firmly at the 3rd largest marketcap of all blockchains. We strongly believe that Binance Smart Chain will only continue to grow as time goes on, increasing the value further for our investors.

NFT's are an incredible innovation coming from the Blockchain ecosystem, allowing market participants to buy a new form of digitized asset. With our soon to be announced partner project, Shibaburn will have its own NFT collection which will allow holders to stake and earn more Shibaburn by playing our partnered projects Play to Earn game. Play to Earn games are on the cutting edge of the Defi ecosystem and we are bringing that experience to our investors!

With an audited contract and KYC through Pinksale, Shibaburn is safe from the scams, rugpulls and honeypots that tarnish the Defi ecosystem. With our incredible team we will utilize the full potential of Defi. We ar on a mission to bring the best Defi experience to our investors. With our strong team and community ShibaBurn will build a safe place for people to learn more, powering the future of Defi.
