

The Funded Trader Roadmap

Your journey here is broken down into two halves. It's a 8 month journey with us to achieve a funded capital and scaling it well into the 6 figures and beyond.

The 8 months go as such:

- 4 months of learning, Back testing, getting help as needed, refining your edge and creating your trading plan etc, overall getting a feel for the strategy and learning how to actually execute it on the charts and generate consistent returns. Dedicate the first half of your journey to skill development and mastery. Don't rush this process... skillset comes first, everything else,including money follows.
- 4 months of seeking capital funding ie. putting your newly developed skills to the test, seeking FTMO (our go to prop firm who provide capital)

It's a 4 month "skill development phase" followed by a 4 month "funding phase".

And of course this is the roadmap that we lay out for you based off what we've witnessed with students... you can absolutely do it faster if you're ready and you're confident. We structure it this way to set healthy expectations so that you can focus on the process and mastering this skillset as it can truly transform your life once you're consistent. We are still less than 1 year old as a community and we've had lots of members acquire capital in the 100k+ numerations. So it can absolutely be done faster than 8 months.

For context, it takes 4 years to get a university/college degree... which still does not guarantee any level of income... and this roadmap here is ONLY 8 months of focused effort... with the potential to develop a skillset that can unlock for you a 6-7 figure income or MORE depending on YOU and your goals.

Don't rush this process. Give it the time it requires to start producing results!

For additional context here is what income on the standard sized funded accounts looks like assuming you refine your skillset and achieve a 20R monthly return (20R = 20% VERY achievable goal as a RJ trader):

USD / GBP / EUR / CAD / AUD etc -

20R on 50k account size = 10,000/month

20R on 100k account size = 20,000/month

20R on 200k account size = 40,000/month

20R on 300k account size = 60,000/month

20R on 400k account size = 80,000/month

Would this not change your life?

Even if you only did half as well and hit 10R months...

Would things not change for you?

Really let this sink in...

How would your life change if you focused, developed this skillset... and achieved true confidence, consistency and funding in your trading?

Take some time this week to think about this and visualise for yourself why you **MUST** hit these targets.

Create for yourself a strong WHY that drives you to take action and focus on mastery of your trading skill.

It's been done before by MANY others in here.

And if it's been done by them, it can be done by you by following the same process.

Now let's get to making it happen.

The highest leverage actions you can be taking going forward are:

- Studying content (content here on the site + the resources available in our Telegram)
- Testing the content (practising your trading via backtesting + reviewing and comparing case studies and markups available in the Telegram against your own + demo/live trading and taking prop fund free trials)
- Getting help when you need help (note down your questions as you make your way through the content and ask your questions in the telegram channel or directly to Rhys and Jordan)

EVERYTHING that you'll ever need to see success as a trader is jam packed into this VIP Area and **MORE** is being added **EVERY** single week based on your guys' valued feedback.

Apply what we teach, read our recommended books and get your mindset on point, **ASK FOR HELP** when you need it... you are not a burden to us by asking questions. It's what we're here for. We are **YOUR** coaches. What fills our cup is seeing you progress and smash milestones that are important to you.

We want you confident, consistent and funded in your trading and within the next 8 months. Every week members are cracking consistency and acquiring funding. We want the same for you. Now let's work together to make that happen,

RJ Trading.
