Golden Grail Technology Corp.
Notes to Condensed Consolidated Financial Statements
September 30, 2020 and 2019
(Unaudited)

Note 1 - Nature of Operations and Going Concern

Nature of Operations

Golden Grail Technology Corp. (“Golden Grail” the “Company”, “we”, “us”, “our”) was incorporated in the State of Nevada on December 3, 1985 as Intermountain Capital, Inc. The Company has changed names a number of times since its incorporation and became Golden Grail Technology Corp. on November 6, 2014.

On February 2, 2016 the Company completed the acquisition of Accurate Venture, Inc., a company incorporated pursuant to the laws of the State of Florida (“Accurate”). Accurate develops and markets specific diet, skincare, wellness and supplement products and contracts with manufacturers for supply. The customer base consists of the general public, as well as businesses that contract with the Company on a direct basis. Accurate has a large marketing database of customers and offers monthly subscriptions for most of its product line.

On April 6th 2017 Accurate Venture Inc transitioned into a fully vertical cannabis company, producing branded Pharmaceutical grade Cannabidiol (Hemp CBD) products for health and wellness in the oncology market. The brand bioRenovate is sold through doctors and hospitals with refills sold through the on-line website. Additionally their consumer GMP products will continue to be sold the general public through its mass-market consumer websites.

On or about March 13, 2018, the Company filed a lawsuit against Defendants William Fisher and Accurate Venture, Inc. in the Circuit Court of the Seventeenth Judicial Circuit in and for Broward County, Florida (the “Lawsuit”) under Case No. 18-005815(12). Subsequently, on or about July 27, 2018, the Company filed an Amended Complaint in the same case, which added as Defendants Melanie Fisher and Leaf Vertical, Inc., a Florida Corporation. The Company and each of the Defendants entered into a Settlement Agreement and General Release of All Claims January 7, 2019 (the “Settlement Agreement.”) Under the terms of the Settlement Agreement, William Fisher and Accurate arranged for the payment of \$65,000 to the Company, and for the transfer of certain records, databases and software.

Mr. Fisher continued to serve as President of our wholly-owned subsidiary, Accurate, until June 30, 2020, at which time the Company completed its unwind of the Accurate Merger by returning its ownership of the 100% of the stock of Accurate to its original pre-merger stockholders, in exchange for the return to treasury of the 19 shares of Series C Preferred Stock.

Terms and Timeframe of Accurate Unwind

On June 30, 2020 the Company entered into a Settlement Completion Agreement with Accurate Venture, Inc. and William Fisher whereby all parties agreed that the shares of Series C Preferred Stock issued pursuant to the 2016 Merger Agreement were returned to the Company. Also, the Company relinquished any right title or interest in the Accurate shares the Company had received under the Merger Agreement. The financial statements include the operations and cash flows of Accurate through June 30, 2020, at which time Accurate was deconsolidated.

Basis of Presentation

The accompanying condensed consolidated financial statements are unaudited. The unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and note disclosures normally included in annual consolidated financial statements prepared in accordance with GAAP have been condensed or omitted, although the Company believes that the disclosures made are adequate to make the information not misleading.

These financial statements as of and for the three and nine months ended September 30, 2020 and 2019 are unaudited; however, in the opinion of management, such statements include all adjustments (consisting of normal recurring

accruals) necessary to present fairly the financial position, results of operations and cash flows of the Company for the periods presented.

Going Concern

The accompanying unaudited consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company currently has no operating activities. Additionally, the Company has negative cash flow from operations and has a working capital deficit of \$2,652,961 at September 30, 2020. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company's ability to continue existence is dependent upon commencing its planned operations, management's ability to develop and achieve profitable operations and/or upon obtaining additional financing to carry out its planned business. However, there can be no assurance that these arrangements will be sufficient to fund its ongoing capital expenditures, working capital, and other cash requirements. The outcome of these matters cannot be predicted at this time.

There can be no assurance that any additional financings will be available to the Company on satisfactory terms and conditions, if at all. In the event we are unable to continue as a going concern, we may elect or be required to seek protection from our creditors by filing a voluntary petition in bankruptcy or may be subject to an involuntary petition in bankruptcy. To date, management has not considered this alternative, nor does management view it as a likely occurrence.

The accompanying unaudited consolidated financial statements do not include any adjustments related to the recoverability or classification of asset-carrying amounts or the amounts and classification of liabilities that may result should the Company be unable to continue as a going concern.

Note 2 - Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary. All material intercompany transactions and balances have been eliminated in consolidation. As discussed in note 1, the Company relinquished any right title or interest in its subsidiary shares as of June 30, 2020. The financial statements include the operations and cash flows of Accurate through June 30, 2020, at which time Accurate was deconsolidated.

Use of estimates

The preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States ("GAAP"), which requires management to make estimates and assumptions that affect amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and reported amounts of revenues and expenses during the periods presented. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from these estimates.

Cash and cash equivalents

For purposes of the statement of cash flows, cash and cash equivalents includes demand deposits, saving accounts and money market accounts. The Company considers all highly liquid debt instruments with maturities of three months or less when purchased to be cash and cash equivalents. The Company has no cash equivalents.

Basic and diluted loss per share

We utilize ASC 260, "Earnings Per Share" for calculating the basic and diluted loss per share. In accordance with ASC 260, the basic and diluted loss per share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted net loss per share is computed similar to basic

loss per share except that the denominator is adjusted for the potential dilution that could occur if stock options, warrants, and other convertible securities were exercised or converted into common stock. Potentially dilutive securities are not included in the calculation of the diluted loss per share if their effect would be anti-dilutive. The Company has 1,179,065,263 and 2,028,269,409 common stock equivalents at September 30, 2020 and 2019. For the three and nine months ended September 30, 2020 and 2019 these potential shares were excluded from the shares used to calculate diluted earnings per share as their inclusion would reduce net loss per share.

Fair value of financial instruments

Our short-term financial instruments, including cash, accounts payable and notes payable, consist primarily of instruments without extended maturities, the fair value of which, based on management's estimates, reasonably approximate their book value.

Income taxes

The Company utilizes ASC 740 "Income Taxes" which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each year-end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income.

Concentrations of Credit Risk

Financial instruments that potentially expose the Company to concentrations of credit risk consist primarily of cash and accounts receivable.

The Company places its cash on deposit with financial institutions in the United States. The Federal Deposit Insurance Corporation covers \$250,000 for substantially all depository accounts. The Company from time to time may have amounts on deposit in excess of the insured limits. The Company had no uninsured balances at September 30, 2020 or December 31, 2019.

Marketable Securities

The Company adopted ASU 2016-01, "Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities." ASU 2016-01 requires equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset, and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost.

The Company's investment in marketable equity securities is being held for an indefinite period and thus have been classified as available for sale. Cost basis of securities held as of December 31, 2019 was \$719,087 and accumulated unrealized losses were \$715,312 as of December 31, 2019. Marketable securities were held by Accurate, whose shares were returned to the original owner pursuant to the Settlement Completion Agreement discussed in Note 1.

Recently Issued Accounting Standards

Recent accounting pronouncements issued by the FASB and the SEC did not, or are not believed by management to have a material impact on the Company's present or future financial statements.

Note 3 – Acquisition

On February 1, 2016 the Company entered into an Agreement and Plan of Merger (the “Merger Agreement”) with Accurate Venture, Inc., a company incorporated pursuant to the laws of the State of Florida, and Golden Grail Merger Corp., a Nevada corporation and a wholly-owned subsidiary of the Company (“Merger Sub”).

On February 2, 2016, the Closing for the Merger Agreement was held and pursuant to which, Accurate merged with and into Merger Sub, with Merger Sub continuing as the surviving entity that succeeded to all of the assets, liabilities and operations of Accurate and Accurate effectively became our wholly-owned operating subsidiary (the “Merger”). At the effective time of the Merger, all of the outstanding shares of Accurate automatically converted into the right to receive all 19 shares of the Company’s newly created Series C Preferred Stock as consideration for the Merger. Since each share of Series C Preferred Stock converts into 1% of the total outstanding, the new shareholders who received Series C Preferred Shares under the terms of the Merger agreement now effectively control approximately 19% of the Company’s voting power. The consideration issued has been valued at \$242,332.

The Merger Agreement contained customary terms and conditions for agreements of this type, including completion of due diligence by the parties and approval of the Merger by Accurate shareholders, as well as an Escrow Agreement. Under the terms of the Escrow Agreement, Accurate is required to complete a PCAOB audit of the prior two (2) fiscal years ending on December 31, 2015 and December 31, 2014, as well as demonstrate certain increases in revenue following receipt of certain financing from the Company. The audits were completed in 2017.

The Merger became effective upon the filing of the Articles of Merger Secretary of State for the State of Nevada, which occurred on February 2, 2016.

On or about March 13, 2018, the Company filed a lawsuit against Defendant’s William Fisher and Accurate in the Circuit Court of the Seventeenth Judicial Circuit in and for Broward County, Florida (the “Lawsuit”) under Case No. 18-005815(12). Subsequently, on or about July 27, 2018, the Company filed an Amended Complaint in the same case, which added as Defendants Melanie Fisher and Leaf Vertical, Inc., a Florida Corporation. The Company and each of the Defendants entered into a Settlement Agreement and General Release of All Claims January 7, 2019 (the “Settlement Agreement.”) Under the terms of the Settlement Agreement, William Fisher and Accurate arranged for the payment of \$65,000.00 to the Company, and for the transfer of certain records, databases and software.

Mr. Fisher continued to serve as President of Accurate until June 30, 2020, at which time the Company completed its unwind of the Accurate Merger by returning its ownership of the 100% of the stock of Accurate to its original pre-merger stockholders, in exchange for the return to treasury of the 19 shares of Series C Preferred Stock.

Terms and Timeframe of Accurate Unwind

On June 30, 2020 the Company entered into a Settlement Completion Agreement with Accurate and William Fisher whereby all parties agreed that the shares of Series C Preferred Stock issued pursuant to the 2016 Merger Agreement were returned to the Company. Also, the Company relinquished any right title or interest in the Accurate shares the Company had received under the Merger Agreement. The financial statements include the operations and cash flows of Accurate through June 30, 2020, at which time Accurate was deconsolidated.

Note 6 - Income Taxes

The Company utilizes ASC 740 “Income Taxes”, which requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statement or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

Since the Company has incurred annual losses since inception, there has been no income tax expense or liability. The Company has provided a 100% valuation allowance for any deferred tax benefits resulting from net operating loss carryovers due to our limited operating history. In addressing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences are deductible.

The Company has not filed any of its tax returns through December 31, 2019.

The provisions of ASC 740 require companies to recognize in their financial statements the impact of a tax position if that position is more likely than not to be sustained upon audit, based upon the technical merits of the position. ASC 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken on a tax return. ASC 740 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods and disclosure.

Management does not believe that the Company has any material uncertain tax positions requiring recognition or measurement in accordance with the provisions of ASC 740. Accordingly, the adoption of these provisions of ASC 740 did not have a material effect on the Company’s financial statements. The Company’s policy is to record interest

and penalties on uncertain tax positions, if any, as income tax expense.

All tax years for the Company remain subject to future examinations by the applicable taxing authorities.
