

Driverless Tractors

The advancement of agriculture

Why use a driverless tractor

- Economic Benefits
 - reduced labor costs
 - greater use of time (no need for breaks)
 - compatibility with all commercially available implements
 - 24-hour availability - results in reduction of capital costs

The Tractor

Springtooth

Tractor using shredder

Tractor usage

Ending

- Future of Agriculture is high tech
- Solutions to the increasing challenging environment for farmers today

- Open the floor for any questions
