PENTERA + 20/20

CYBER RESILIENCE ASSESSMENT

WHY DO A CYBER RESILIENCE ASSESSMENT?

- Validate your security controls & true cyber exposure
- Identify exploitable vulnerabilities you did not know exist
- Evaluate enterprise readiness and start reducing risk

HOW DOES IT WORK?

- Discover root vulnerabilities automatically
- Progress the attack operation
- Report & guide remediation

WHAT IS A CYBER RESILIENCE ASSESSMENT?

Powered by Pentera, a VM2020 Cyber Resilience Assessment is a simple one-day assessment that allows you to evaluate Pentera's automated security validation platform within your own environment. With Pentera, customers gain unprecedented visibility into their networks and uncover unknown security gaps - before they develop into damaging data breaches. VM2020 experts deploy Pentera within minutes, giving you access to our groundbreaking attack orchestrator engine. At the end of the POV, a report is produced automatically, providing you with findings, and a validated roadmap for cyber exposure reduction.

CYBER RESILIENCE ASSESSMENT TIMELINE

SCHEDULE	ACTIONS
Pre-CRA	Schedule deployment of the Pentera instance
	• Deployment completed (in under 30min) • Discovery process validation (sanity test) • Attack techniques are activated
CRA Day (2-4 hours)	**Learn about your network, assets, and enterprise** • All assets in scope (up to 256 endpoints) are mapped • Start assessing network security posture • Identify and focus on exploitable vulnerabilities
	Initiate attack operation • Gain insights how vulnerabilities are used to progress the attack • Evaluate attack operation scope and attack frameworks used • Safe Exploits are approved
	Mid-day checkpoint
	Investigate achievements and analyze attack operations • Gain deeper understanding into risk prioritization • Simulate remediation fixes against discovered root vulnerabilities
	Evaluate & review • Final executive summary report is delivered at review meeting • Proof of Value assessment is completed
Post-CRA	• Sign agreement • Plan enterprise deployment and your support needs
