

Certified LeSS Basics

The course is for Scrum practitioners involved in a Large Scale Scrum effort. It is a brief introduction to the LeSS framework and the essential concepts that it uses. LeSS builds on top of the Scrum principles such as empiricism, cross-functional self-managing teams and provides a framework for applying that at scale.

Target audience

The Certified LeSS basics course is for anyone involved in a Large-Scaled Scrum (LeSS) effort. The primary audience is software developers, Scrum Masters, Product Owners, Agile Coaches, and managers in product development groups interested in expanding their knowledge on various agile scaling approaches.

Aims and Objectives

The main learning goal for participants is to gain more information on what LeSS is, what LeSS is not, the purpose of LeSS, and how it may be applicable in their working environment. In addition, students will learn where to find more information about LeSS and what to do if one is interested in adopting LeSS in their company.

Benefits

- ✓ Our courses are always delivered by experienced **practitioners** who actively **participate in Agile business transformations** on a daily basis.
- ✓ **Small training group** means each participant has a quality experience with maximum interaction with the trainer and other participants throughout the workshop.
- ✓ Participants receive a **Certified LeSS Basics certificate** and an account on less.works.
