

CASE STUDY

INDUSTRY

- TRANSPORT & TOURISM

CONTRACTED SERVICES

- BASIC BUSINESS FIBRE

E-BIKE Gibraltar was opened in early 2019, working exclusively with ethically sustainable brands of the highest quality, to provide locals and tourists alike with a unique way to experience Gibraltar. Their low-maintenance eBikes are some of the best on the market, providing a credible alternative to traditional transport.

Enjoy effortless guided tours up the rock, or simply rent a bike and explore Gibraltar on your own from a new perspective, all in style and in an eco-friendly green way.

“ Having good broadband is really essential in this day and age. All of our communications, either messages, emails or inquiries to our booking site, are now dealt with online.

Especially since the start of the pandemic this has become more crucial to help put us in touch with our customers and we can always trust **GIBFIBRE** broadband to never let us down on new business opportunities. ”

STUART HEDLEY
