**Join the "SDGs Geneva" WhatsApp Group!**

<u>Overview</u>

The SDG Lab has established an informal WhatsApp group where participants can share events, publications, resources, and news related to the SDGs with peers in Geneva. The group is made up of individuals from UN Agencies, NGOs, academia, the private sector, and Member States that have an interest on being informed on SDG activities in and around Geneva.

<u>Guidelines</u>

This is an open, peer-to-peer group that functions on common sense principles. Users are asked to be concise and clear with their messages (under 20-50 words). Events should have date, time and location information. All posts should have directions about where users can find more information. Users are also asked to ensure that the information they are sharing has a clear link to the SDGs.

Examples:

On June 16th, our Community Coffee will focus on the High-Level Political Forum on Sustainable Development, with an emphasis on local SDG implementation. Sign up here: https://www.eventbrite.com/e/geneva-sdg-community-coffee-tickets-330649129447

The SDG Lab has launched their 2021 Annual Report! If you want to see the progress we've made and the events we're working on, then read all of it on our website here: https://www.sdglab.ch/en-activities/sdg-lab-annual-report-2021

UNITAR has a free online course (MOOC) on the basics of the 2030 Agenda available at: https://www.unitar.org/thematic-areas/capacity-2030-agenda

<u>Notifications</u>

Notifications for WhatsApp will be according to your own phone's settings. If you wish to "mute" notifications for the group and check periodically at your own leisure without being prompted simply enter the group, hold on the group in the selection menu until options appear. From there, click "mute", select the length of time you would like to go without receiving notifications from the group.
