SAFOSO AG (www.safoso.com) is a private consultancy company working to assess, manage and educate on risks related to livestock health and animal-derived foods. We are working internationally on a broad range of projects for clients from the public and private sector. This provides a diverse learning environment for junior colleagues. We are therefore looking for a

Resident in Veterinary Public Health (Population Medicine)

The resident will have the unique opportunity to be involved in a wide range of client-oriented projects at the interface of science, policy and practical application. He/she will contribute to the design and implementation of studies and surveys, conduct data analysis, prepare and contribute to workshops and trainings and be involved in client communication, among others. The resident will have time for personal study and short-term externships with international research partners are also possible.

It is expected that the resident will sit the examination as conducted by the European College of Veterinary Public Health, sub-specialty population medicine (for more information see www.ecvph.org). SAFOSO is an Approved ECVPH Residency Training Institute.

The successful candidate will possess strong motivation, be capable of working independently as well as in a team, demonstrate excellent self-organizational skills, and show enthusiasm for contributing to diverse projects for clients in the private and public sectors. He/she will be a Swiss or EU/EFTA citizen and have a degree in veterinary medicine registrable in Europe. An MSc in epidemiology or a similar field relevant to veterinary public health is highly desirable. Willingness to travel internationally is essential. Fluency in German and good knowledge of English (minimum CEFR B2) are a requirement, additional language skills are an asset. The post will be based in Bern-Liebefeld, Switzerland.

The salary offered is fixed according to Swiss National Science Foundation salary bands for degree students. More information is available here (Annex 12).

The expected start date is September 2023 or according to mutual agreement. Duration: 36 months.

For more information, please contact Dr. Manon Schuppers, manon.schuppers@safoso.ch. Application deadline is 31 July 2023.
