Data Manager

Developed by **ROGII**

DATA ORGANIZATION AND VISUALIZATION

The Data Manager is a secure, cloud-based solution that stores data and helps users easily manage, sort, filter and organize their Solo projects. The Data Manager enables organizations to set individual access rights, create master Global Projects as well as much smaller splinter or Virtual Projects.

Looking for a specific lateral, typewell, polygon or grid from a project?

Simply type in the object name in the search bar and filter by your desired object type.
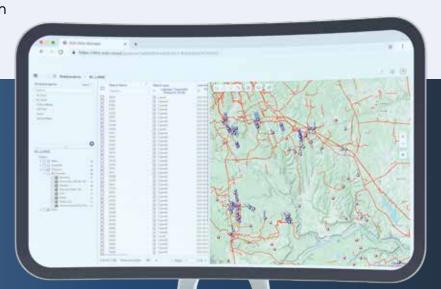

VISUALIZE

Wells, pads, locations, polygons and boundaries

CUSTOMIZE

Projects, access, and views

WITH SOLO CLOUD DATA MANAGER:

Set Individual Access Rights

Easily control who has access to your projects and what they can edit. Easy to use without user restrictions.

Always Up to Date with the Most Recent Data

Tired of waiting for email updates? Not a problem, with Data Manager you're always up to date with the latest info.

Login from Anywhere

Away from the office? Not a problem, easily log in and access your data anywhere with an Internet connection.

Secure

With SOC 2 certification you can be certain that your data is always safe and secure.
