OMAN REINSURANCE COMPANY S.A.O.G. Directors' Report

For the 3 months ended 31 March 2022

Dear Shareholder,

After Compliments,

The Board of Directors is pleased to present the unaudited results of Oman Reinsurance Company S.A.O.G. ("Oman Re" or "the Company") for the three months period ended 31st March 2022.

The Financial Highlights for three months ending 31st March 2022 are summarized below:

	31 March 2022	31 March 2021
	OMR	OMR
Gross Written Premium (GWP)	15,255,650	12,392,863
Underwriting results	675,832	779,876
Investment and other income	470,433	562,702
Expenditure – General and Admin Expenses	613,887	830,483
Net Profit after tax	290,272	381,342

Premium and underwriting performance

The company continued to increase its Gross Written Premium (GWP) during the first quarter of 2022. The GWP for the three months ending 31 March 2022 was OMR 15.2 million which is 23% higher than OMR 12.4 million figure for same period last year. Underwriting performance has been resilient achieving an underwriting profit of OMR 676k for Q1 2022 compared to OMR 780k for Q1 2021. The higher claims ratio of 59% in Q1 2022 vs 56% for Q1 2021 along with higher acquisition cost ratio of 28% for Q1 2022 vs 23% for Q1 2021 is the main reason for a lower underwriting profit.

General and Administrative Expenses

During Q1 2022, the total expenditure amounted to OMR 614k as against OMR 830k for the same period in 2021. The general and admin expenses as a percentage of GWP is 4% for Q1 2022 vs 6.7% for Q1 2021.

Investment Income

The Investment and Other income for the quarter amounted to OMR 470k vs OMR 562k for the same period last year. The main reason for the decline is that the company did not do trading during the quarter of its debt portfolio mainly on account of higher market volatility in debt markets.

Net Profitability

The Company's net profit after tax for the first quarter 2022 was OMR 290k compared to OMR 381k for the same period last year. The volatile currency environment resulted in a foreign exchange loss of OMR 191k for the period ended 31 March 2022 compared to OMR 54k for the period ended 31

March 2021. The higher foreign exchange loss was the main contributor for lower net profit after tax.

2 Basis of preparation

(a) Statement of compliance

The condensed interim financial information for the three-month period ended 31 March 2022 has been presented in accordance with International Accounting Standard 34 - "Interim Financial Reporting". The accounting policies adopted in preparation of the condensed interim financial information are the same that were followed as at, and for the year ended, 31 December 2021. These condensed interim financial information should therefore be read in conjunction with the audited annual financial statements prepared as at, and for the year ended, 31 December 2021, which have been prepared in accordance with the International Financial Reporting Standards (IFRS).

(b) Basis of presentation

The condensed interim financial information for the three-month period ended 31 March 2022 has been prepared in accordance with IAS 34 "Interim Financial Reporting".

(c) Functional currencies

The condensed interim financial information is presented in Omani Rials (RO) which is the functional and reporting currency for the Company.

3 Adoption of new and revised IFRS

New and amended standards effective and adopted at 1 January 2022

A number of new or amended standards became applicable for the current reporting period. The Company did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards.

Standards, amendments and interpretations issued but not yet effective at 1 January 2022

The Company has not early adopted any standard, interpretation or amendment that has been issued by the International Accounting Standards Board but is not yet effective.

Standards, amendments and interpretations issued but not yet effective in the period 2022 IFRS 17 "Insurance Contracts"

IFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts and supersedes IFRS 4 "Insurance Contracts".

IFRS 17, "Insurance Contracts" requires entities to identify portfolios of insurance contracts, which comprises contracts that are subject to similar risks and are managed together. Each portfolio of insurance contracts issued shall be divided into a minimum of three groups:

Notes to the condensed interim financial information for the three-month period ended 31 March 2022 (un-audited) (Expressed in Omani Rial)

- 3 Adoption of new and revised IFRS (continued)
 Standards, amendments and interpretations issued but not yet effective in the period 2021 (continued)
 IFRS 17 "Insurance Contracts" (continued)
- · a group of contracts that are onerous at initial recognition, if any;
- a group of contracts that at initial recognition have no significant possibility of becoming onerous subsequently,
 if any: and
- a group of the remaining contracts in the portfolio, if any.

The Company is not permitted to include contracts issued more than one year apart in the same group. Furthermore, if a portfolio would fall into different groups only because law or regulation constrains the Company's practical ability to set a different price or level of benefits for policyholders with different characteristics, the Company may include those contracts in the same group.

There would have been a material change in the operational results of the Company for the period ended 31 March 2022 had the Company early adopted the above standard as the Company is engaged in underwriting reinsurance business. However, the management is expected to apply the standard from its effective date of 1 January 2023.

4 Significant accounting policies, critical accounting estimates and key source of estimation uncertainty

The preparation of condensed interim financial information requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. Actual figures may differ from these estimates and judgements. While preparing the unaudited condensed interim financial information, the significant judgements made by the management in applying the accounting policies and the key sources of estimation and uncertainty were the same as those that were applied to the annual audited financial statements prepared as at, and for the year ended, 31 December 2021.

The Company's activities expose it to a variety of financial risks: market risk (including currency risk and interest rate risk), credit risk and liquidity risk. The condensed interim financial information does not include all financial risk management information and disclosures required in the annual audited financial statements, and should therefore be read in conjunction with the annual audited financial statements prepared as at, and for the year ended, 31 December 2021. There has been no change in the risk management policies since 31 December 2021.
