

## **Project Manager Job Description**

### **Responsibilities:**

The Marinship Development Interest Project Manager is responsible for ensuring that work is executed in compliance with project contract nuances including safety, specifications, and reporting and quality requirements. This position is also responsible for:

- Creating and managing project schedules on a regular basis
- Creating and controlling project budgets
- Negotiating purchase orders, subcontracts, and change orders
- Maintaining relationships with owners, contractors, subcontractors, and project team members

### **Employee Benefits:**

Marinship Development Interest takes pride in providing generous benefits programs to our employees, skilled laborers and their families.

We offer a competitive benefits package which includes: medical, dental, vacation and holiday pay, employee referral program, training and development opportunities, as well as corporate sponsorship for employee sports teams and charitable events.

Marinship Development Interest will not discriminate against any employee or applicant for employment because of race, religion, color, sex or national origin, or against any subcontractor whose principals or employees are minority group members.

### **Qualifications and Skills:**

Must have a bachelor's degree in construction management, civil engineering, or a related field or equivalent experience.
