YO! BABY DRIP IS DOPE!

What is BabyDrip?

Baby Drip is a reflection token of the native token for Drip Network (DRIP). You earn rewards just by holding BabyDrip in your wallet. The rewards are in the form of DRIP, rewarded to you from Pancake Swap Liquidity.

The more BabyDrip you have in your wallet, the higher % of DRIP you get airdropped out to you based on the transaction volume. The higher the volume, the higher the frequency YOU get your DRIP. You do not need to give up ownership or lock up any of your tokens to earn DRIP.

YOU CAN HAVE A TOTAL OF
10 BILLION BABYDRIP TOKENS IN A SINGLE WALLET.

TOTAL SUPPLY: 1 TRILLION

You do not need to stake BabyDrip to earn DRIP rewards, essentially regardless of the price, the key is that you EARN ORIGINAL DRIP TOKENS. The sustainability of BabyDrip is through the innovative tax system and the tokenomics.

www.babydripath.io

Sustainability

There's a tax on BabyDrip buys and sells, those taxes are used to buy DRIP which are distributed to holders of BabyDrip based on how much BabyDrip they hold. The contract will buy DRIP and then distribute to BabyDrip Holders.

Tax on BUYS and SELLS

10% on buying   15% on selling

The 10% buying tax is split into

- 7% on DRIP rewards
- 2% on Marketing
- 1% on LP Tax (adds liquidity to BabyDrip)

TOKENOMICS:

- TEAM 8%

- MARKETING 2%

- LIQUIDITY 35%

- PRESALE 45%

- BURN 10%
