The Future of the EiOC Taskforce

# Look Back at Phase I and Ahead at Phase II

## A Brief History of the EiOC Taskforce

In February 2022, we formed and had our first meeting

Together we learned about equity and systems change in Orange County

We voted on 3 social determinant of health priority areas to take action on in Phase II

### Social Determinants of Health in OC

**Equity Improvement Teams** will make measurable progress in the three focus areas selected by the EiOC Taskforce

## We will work together to develop solutions that do most or all of the following:

Address one or more of these 3 Priority Areas

Work to improve the **systems** involved

Include working "mid-stream" and/or "upstream"

Apply an equity lens

Are **designed with the people** that the effort is for

Use **data** (identify need, track progress, guide decision-making)

Increase collaboration (leverage and align)

Are actionable and feasible now

## The Future of the EiOC Taskforce

### We're Aiming for <u>Permanency</u> and <u>Sustainability</u> of Community Voices

## Background

HCA's Strategic Plan Public Health 3.0

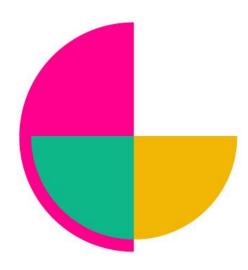

**Vision** 

Quality health for all

#### **Mission**

In partnership with the community, deliver sustainable and responsible services that promote population health and equity

#### Goals

Promote quality, equity, and value. Ensure the HCA's sustainability. Offer relevant services to the community

#### Public Health 3.0

Supporting the health of the public is more than the work of a single Public Agency.

https://www.healthypeople.go v/sites/default/files/Public-Health-3.0-White-Paper.pdf

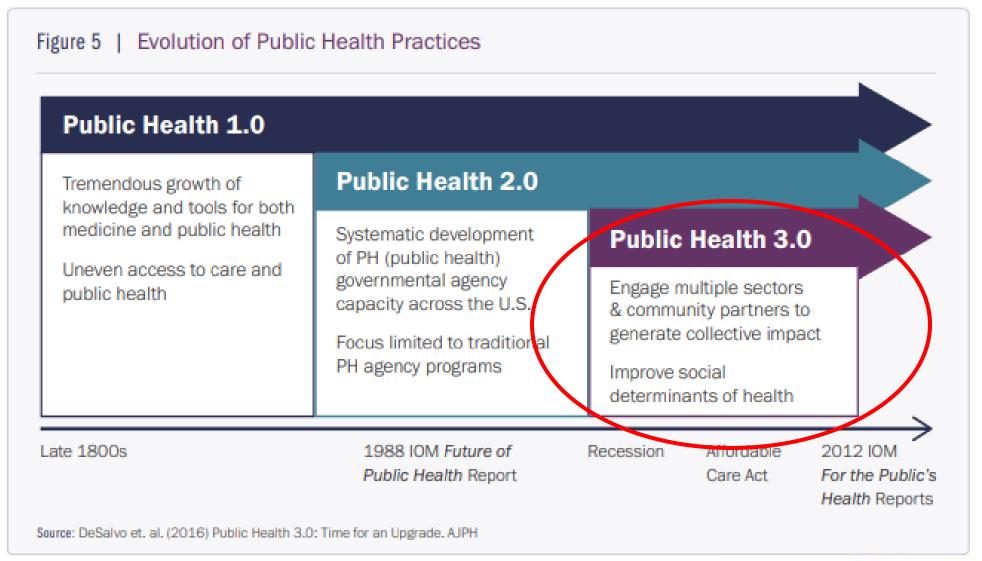

"Public health is what we do together as a society to ensure the conditions in which everyone can be healthy."

Institute of Medicine. (1988). The Future of Public Health. Washington, DC: The National Academies Press. doi:10.17226/1091

### PH 3.0: More than One Public Agency

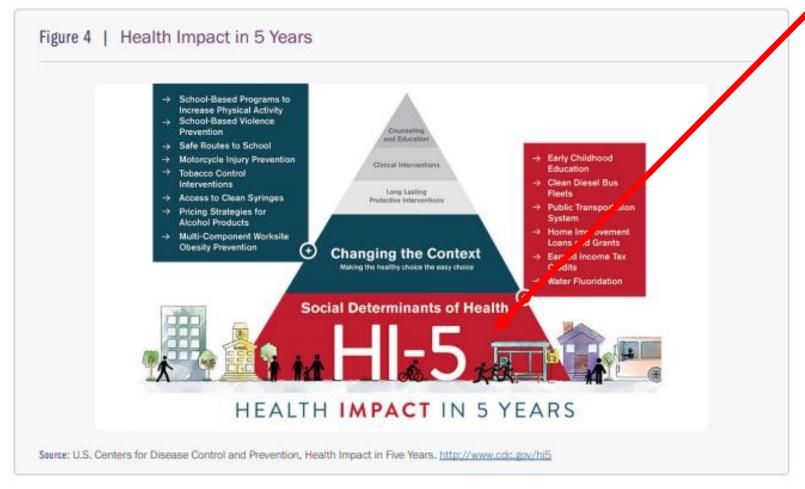

## PH 3.0: Strategic Partnerships

- Establishing backbone entities for strategic planning and funding
  - A politically neutral backbone entity is an essential component of any successful collaborative effort
  - The entity would convene and collect input from partners, mobilize funding, and drive action toward shared goals
- Cultivating new and existing relationships
  - PH 3.0-style initiatives hinge on **authentic and strong relationships to yield sustained collaboration and impact**, and should align the values of each participating organization's missions
- Identifying collective goals and defining value
  - Participants noted that collaborations are successful when they bring together entities with diverse, relevant expertise
  - Conveners should also consider non-traditional partners, who can often add important value and insight

### PH 3.0: Improving Social Determinants of Health

**Equity In OC Initiative** 

Equity in OC Taskforce

 Priority Social Determinants

 Action and Learning Community

## **Becoming the Permanent Planning Partnership**

Maintaining the focus on equity and social determinants of health

 Broadening the topic areas to assess and plan around (e.g. to include health conditions)

Engaging a neutral/community facilitator: Deborah Maddis

## Purpose

The Planning Partnership will advance the work of the EiOC Task Force and OC Health Improvement Partnership (HIP) to promote and sustain Orange County's collective responsibility to cultivate strong, and healthy communities.

➤ A whole county, whole person collaborative partnership to achieve a healthier, more resilient and equitable Orange County

ALL ARE WELCOME to empower community voices from cross-sector members, stakeholders, community and health care organization representatives across Orange County.

#### **Your Voices Are Needed**

# Leading together to:

Support the EiOC Action and Learning Community by taking part in updates, networking, information and resource sharing, and storytelling to create a healthier, more resilient and equitable Orange County;

**Guide periodic countywide assessments** for needs such as Public Health Accreditation Board (PHAB), support Mental Health Services Act (MHSA), and other planning processes; and

Establish health priorities and promote the adoption of associated health improvement plans and innovations for better health outcomes and a strong OC health care system.

# More to come in our next session!
