# **DRIP PLAYERS STEP BY STEP HOW-TO DRIP GUIDE**

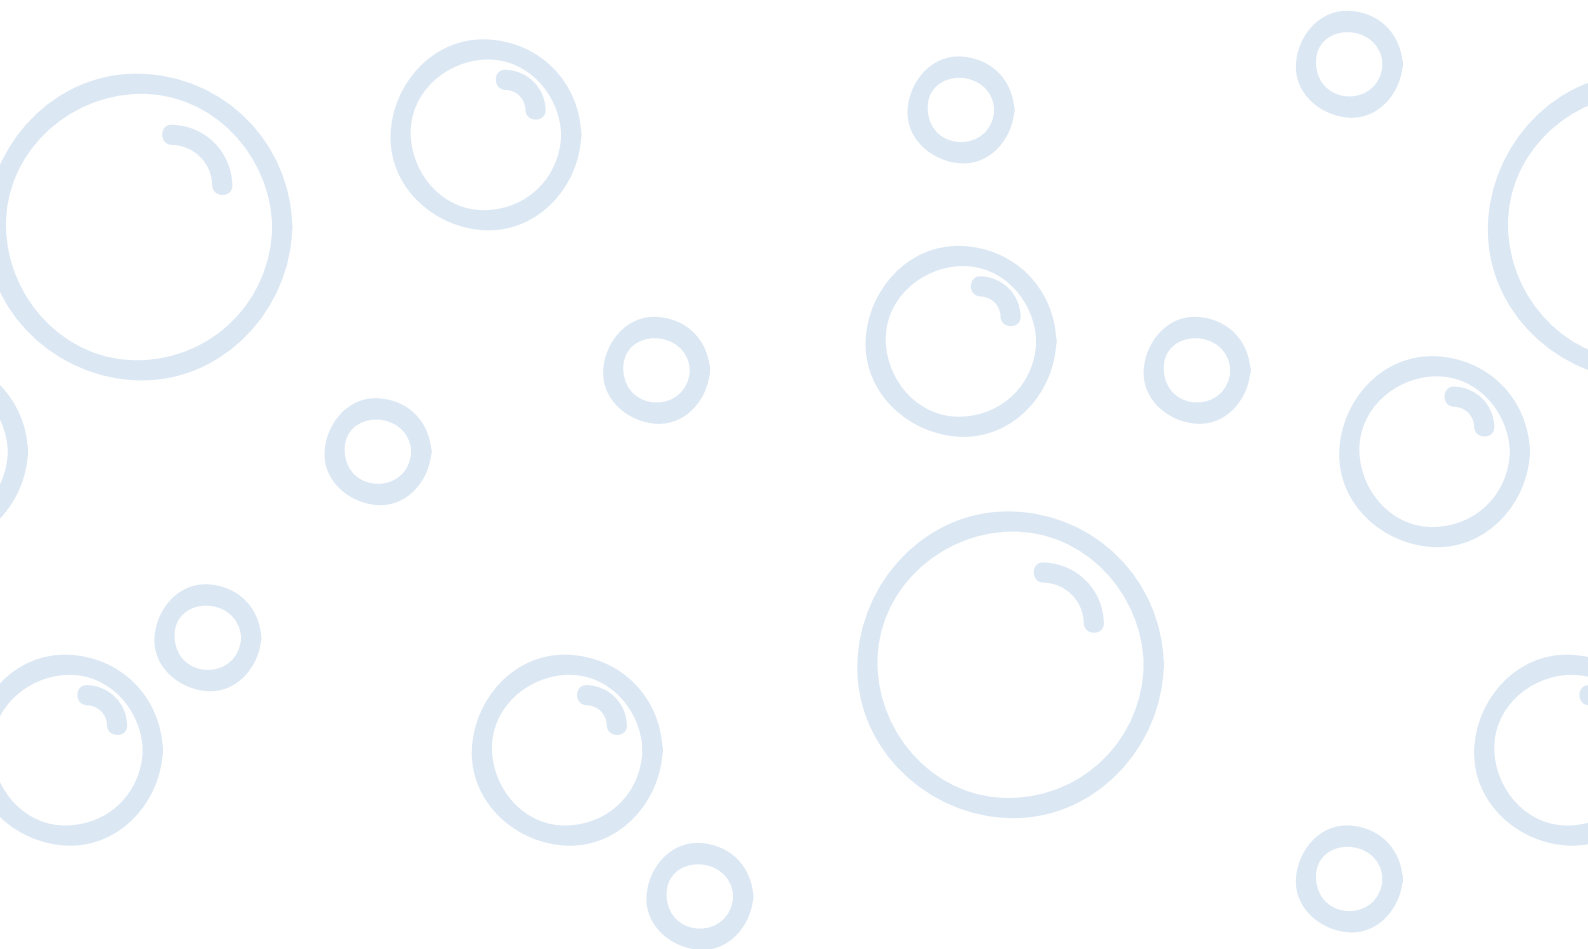

The briefest overview of the  
process of getting into DRIP

[DRIPPLAYERS.COM](https://dripplayers.com)

*Before we start here is a quick WARNING:  
never give out your wallet security/seed  
phrase*

*Never invest money that you can't afford  
to lose. Always do your own research. This  
is Not financial advice.*

**Let's start!**

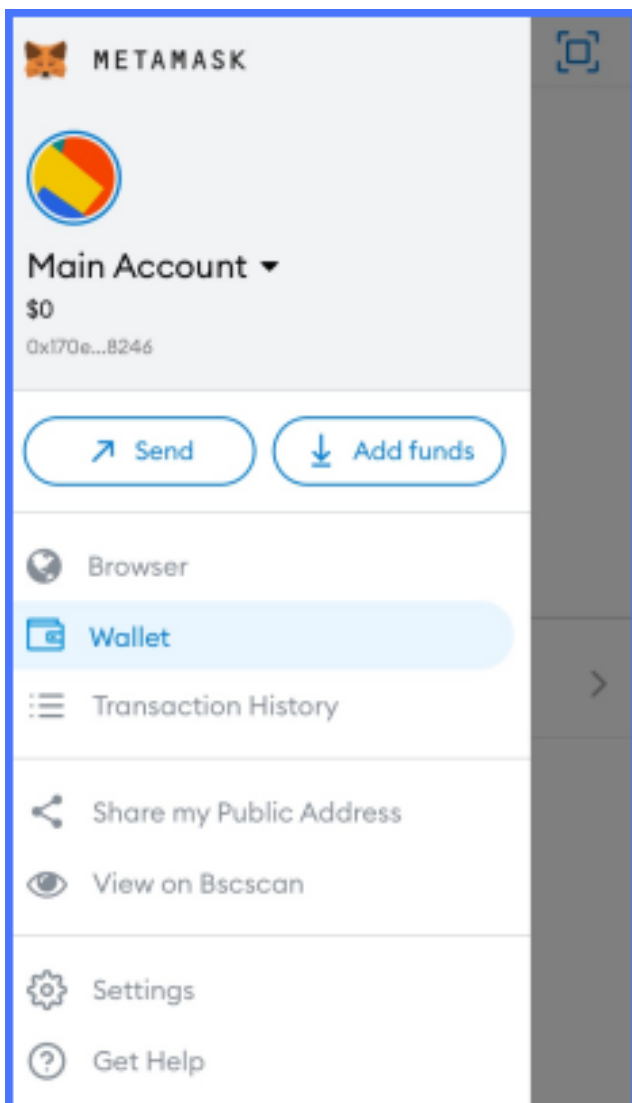

## Install MetaMask wallet on your smartphone

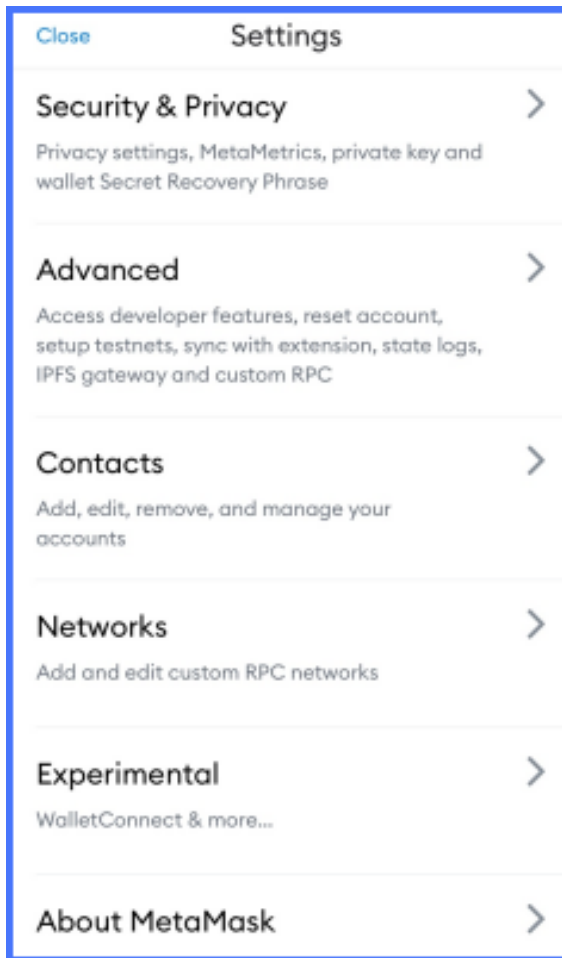

- Be sure to only download this app from a verified app store. DO NOT follow a random link online!

It's what we'll be using for this guide. Go to your app store and install it on your phone.

You can also install it on your computer but I found it easier to go through my phone.

*Screenshot from MetaMask —  
This is the menu inside the  
app, where you will find  
various features*

*Screenshot from MetaMask  
— This is what you will find  
inside the Settings section.*

## Connect to BSC Smart chain network

Enter the following information to connect to the Binance Smart chain. You will find this screen inside MetaMask wallet by clicking the Menu icon > Settings > Networks > Add Network

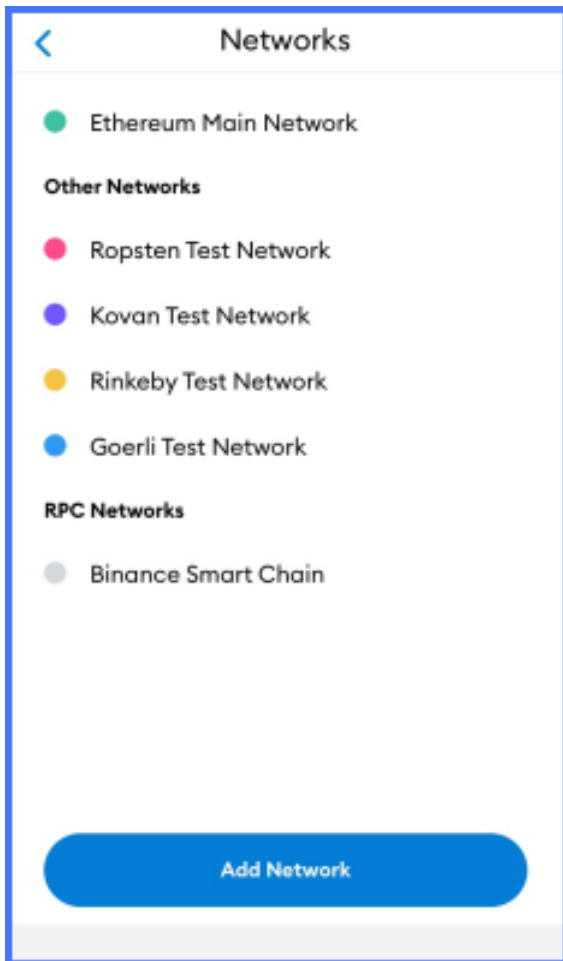

Network Name: Smart Chain

New RPC URL: <https://bsc-dataseed.binance.org/>

ChainID: 56

Symbol: BNB

Block Explorer URL: <https://bscscan.com>

*Screenshot from MetaMask —  
Click 'Add Network' to enter  
the BSC Smart Chain info.*

A screenshot of the 'New RPC Network' form in the MetaMask mobile app. The title 'New RPC Network' is at the top, followed by the instruction: 'Use a custom RPC-capable network via URL instead of one of the provided networks.' The form contains several input fields: 'Network Name' (placeholder: 'Network Name (optional)'), 'RPC Url' (placeholder: 'New RPC Network'), 'Chain ID' (placeholder: 'Chain ID'), 'Symbol' (placeholder: 'Symbol (optional)'), and 'Block Explorer URL' (placeholder: 'Block Explorer URL (optional)'). At the bottom, there is a blue button labeled 'Add'.

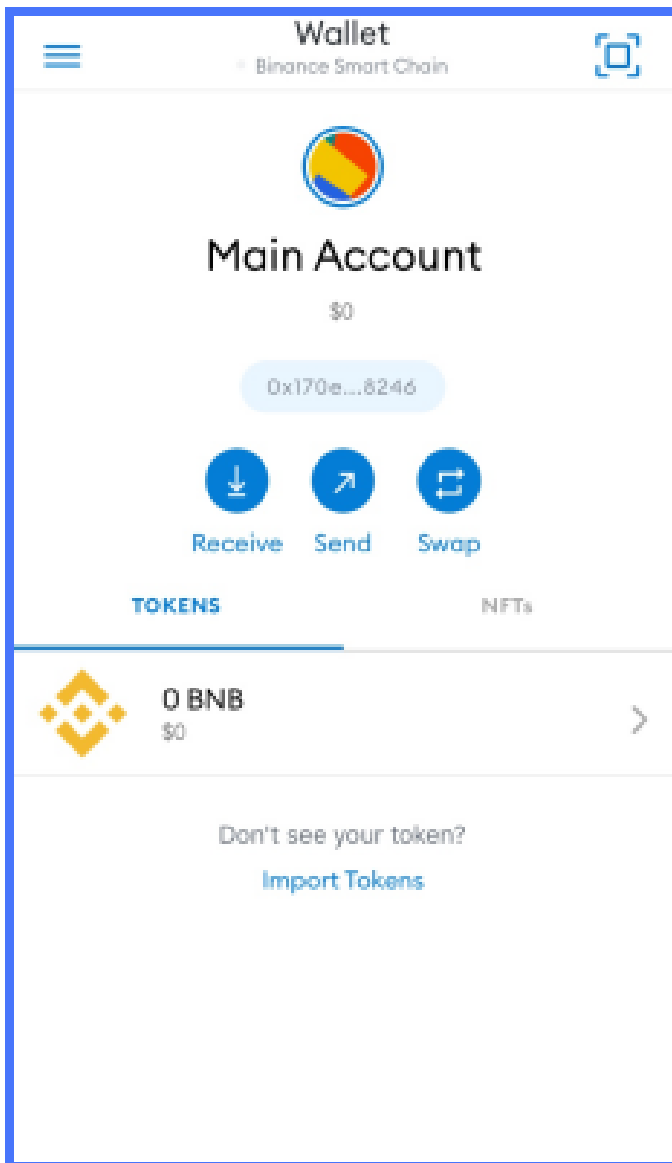

*Screenshot from MetaMask  
— This is where you enter the  
BSC Smart Chain info.*

## Install Currencies

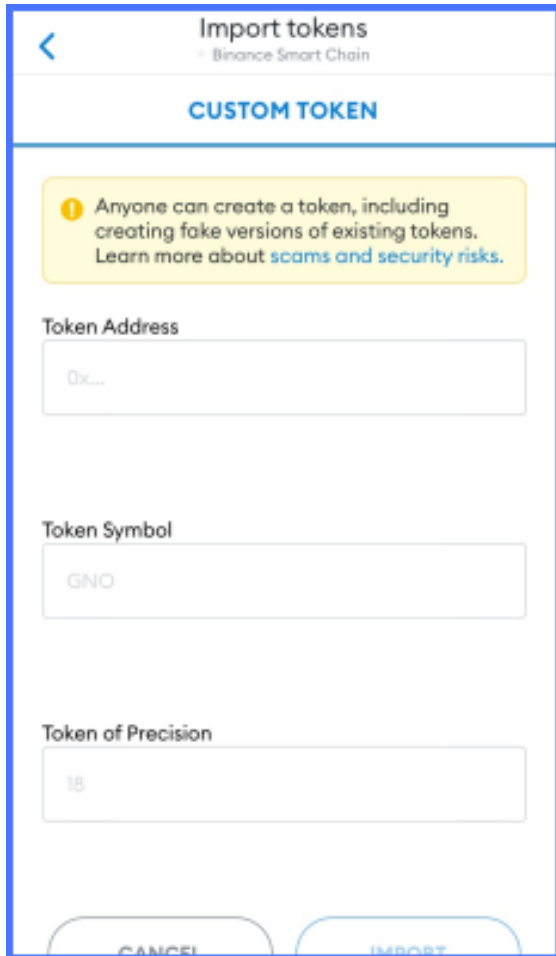

You need to install the DRIP currency in your wallet. It's a bit like turning the option for the currency on, it will show up in your wallet after you do this, but you still need to buy it.

Use this code:

**0x20f663CEa80FaCE82ACDFA3aAE6862d246cE0333**

*Screenshot from MetaMask –  
This is the main wallet  
screen, click “Import Tokens”*

Import tokens  
- Binance Smart Chain

**CUSTOM TOKEN**

1 Anyone can create a token, including creating fake versions of existing tokens. Learn more about [scams and security risks](#).

Token Address  
0x...

Token Symbol  
GNO

Token of Precision  
18

CANCEL IMPORT

*Screenshot from MetaMask —  
This is the Import Tokens  
screen. You need to paste the  
code above, the rest of the info  
will be automatically populated.  
Then click the Import button.*

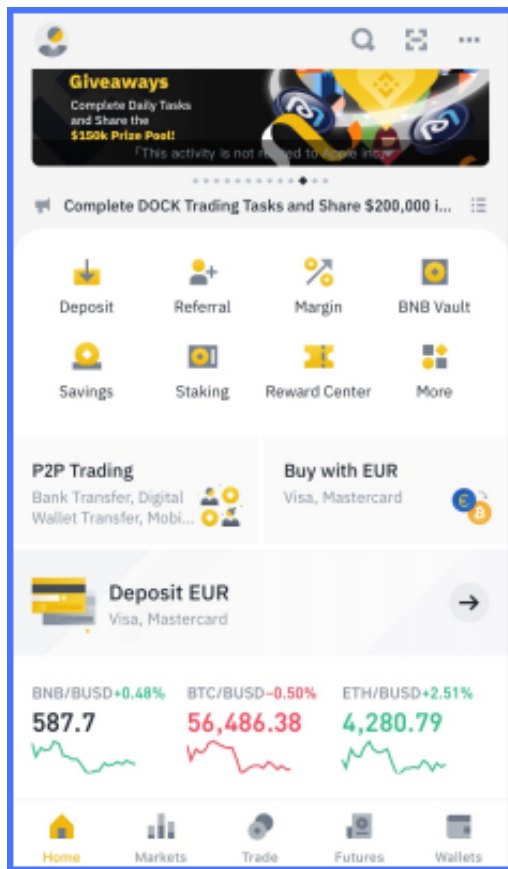

## Transfer BNB to MM

You need to purchase BNB coin on an exchange ([Binance.com](https://binance.com)) is easiest because it's their native coin. Binance.us is the equivalent for the USA and I believe works the same way now. [Crypto.com](https://crypto.com) is another good exchange).

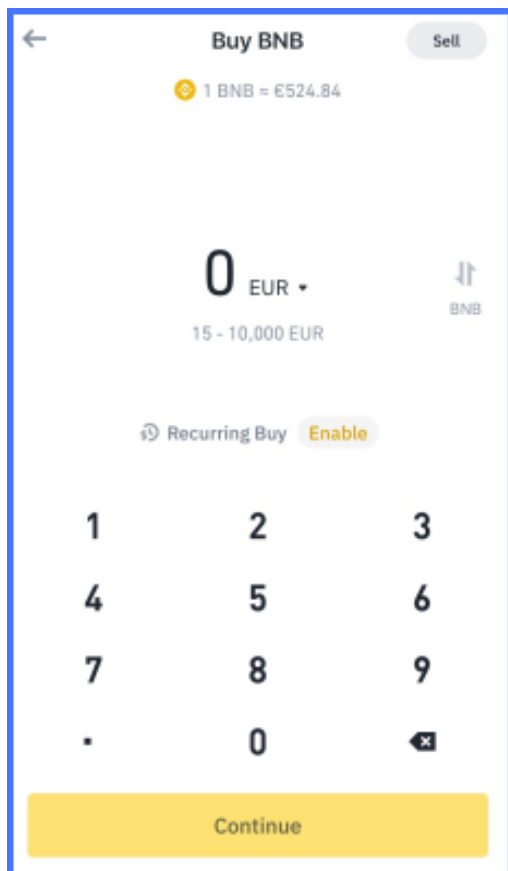

Note: If you need to sign up for an exchange you can use my [Binance.com](https://binance.com) referral code and we'll both earn 10% commission rewards, or use my [Crypto.com](https://crypto.com) referral code and we can both get \$25 USD in credit :)

Using your preferred payment method, purchase BNB with Fiat currency.

[drip.community/faucet?buddy=0x321c76e7649D3F334582355273C3e347f62D2E27](https://drip.community/faucet?buddy=0x321c76e7649D3F334582355273C3e347f62D2E27)

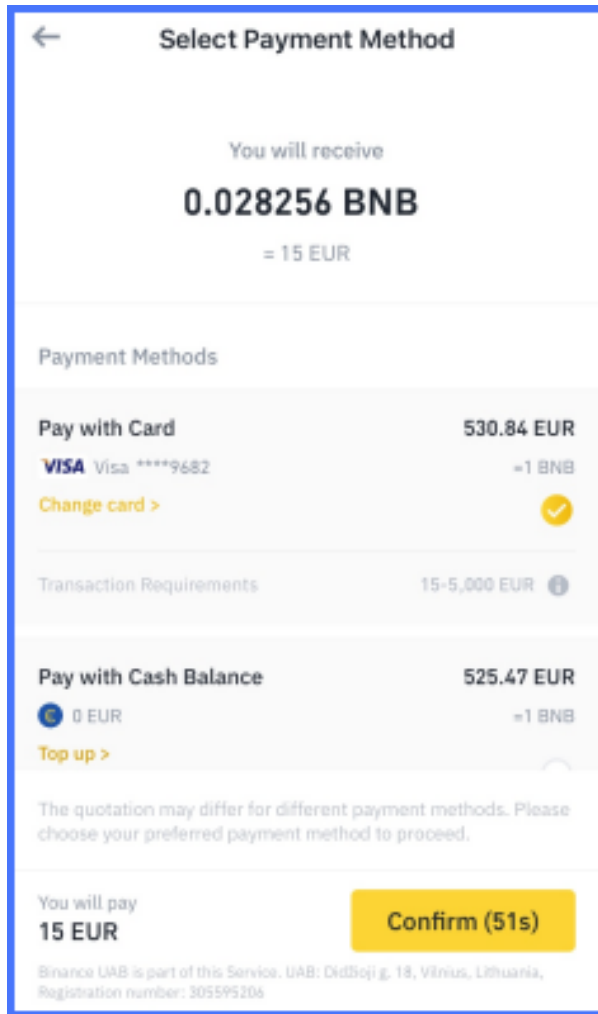

*Screenshot from Binance app  
— Use the Deposit button up  
there, and choose BNB coin*

*Screenshot from Binance app  
— Enter the amount of BNB in  
your chosen currency*

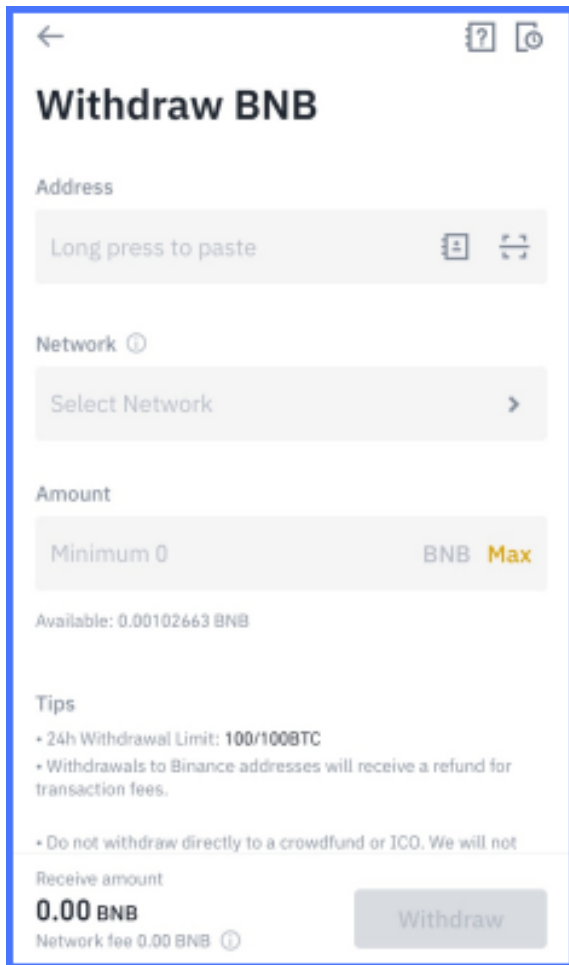

*Screenshot from Binance app  
— Confirm the transaction*

**From your Spot wallet, you need to withdraw BNB to your Metamask wallet. BNB will automatically be converted to the Binance Smart Chain version of the currency (BEP-2 to BEP20).**

**You can copy your wallet address from MetaMask and enter it into your exchange account and save it to your 'address book' for later. This is a good security tip, to avoid making mistakes with where you are sending your tokens.**

*Screenshot from Binance app  
— From your Spot wallet you  
can withdraw to your  
MetaMask wallet address.*

Then send your BNB to MetaMask, confirm the transaction and wait a minute or two.

Refresh your wallet screen if it makes you feel better. You will receive some confirmation messages when it's done.

## Connect to Faucet — Buddy address

The safest and easiest way to do this is to navigate to the [Drip.Community](https://drip.community) site using the browser within the MetaMask app. Click Connect Wallet at the top right of the page and select your wallet address.

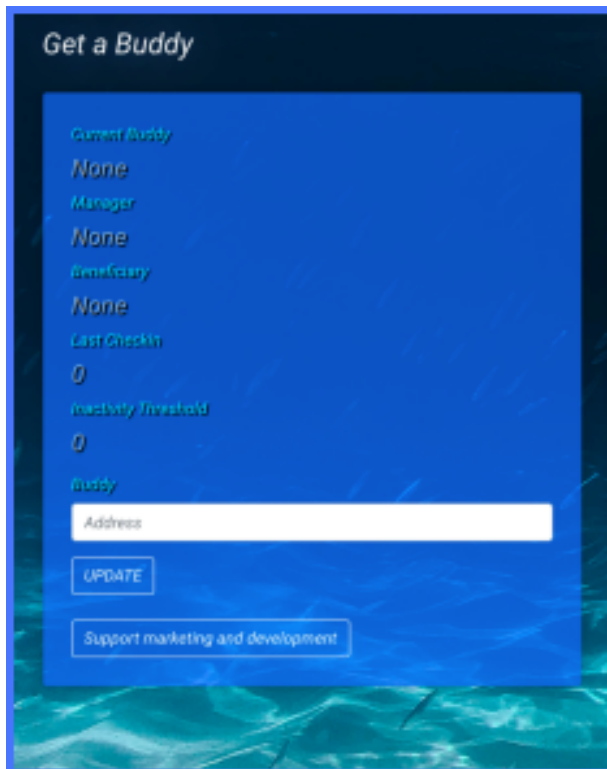

Please Note: There is no user account or login for this type of Cryptocurrency project.

Your wallet is securely accessing a Smart Contact via the webpage, which is essentially just a user interface. Your crypto will be safe and secure in your wallet (unless you inadvertently give away your 12-word seed/security phrase! Read more on [Medium.com](https://medium.com)).

Enter the following wallet address into the Get a Buddy box on the Faucet page:

[0x321c76e7649D3F334582355273C3e347f62D2E27](#)

Or [click this link](#) to auto-populate the Buddy code on the page.

*Screenshot from the [Drip.Community](#) site — This is where you enter (my) Buddy address to get connected to the [Drip](#) Faucet.*

You do need a small amount of BNB in your wallet for the initial gas fees, but only in the region of 0.0010 BNB or something.

Now your wallet should be connected to your [DRIP](#) account!  
Woo-Hoo!!!

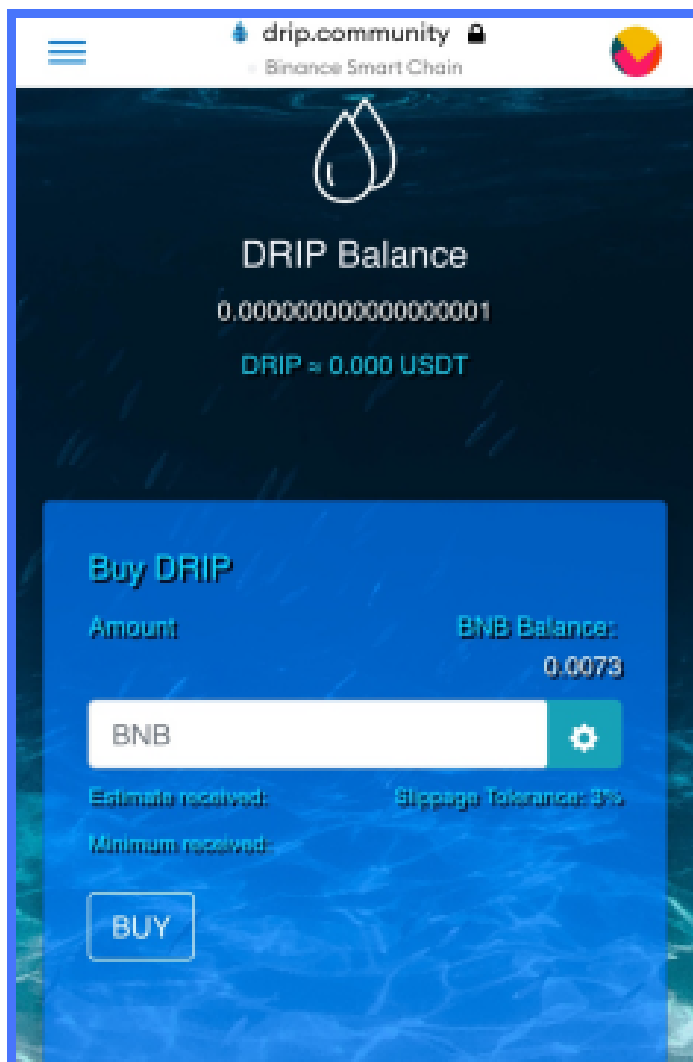

[drip.community/faucet?buddy=0x321c76e7649D3F334582355273C3e347f62D2E27](https://drip.community/faucet?buddy=0x321c76e7649D3F334582355273C3e347f62D2E27)

## Buy DRIP — Swap BNB for DRIP on the Fountain/Swap page

On the Swap page of the [drip.community](https://drip.community) site you can convert your BNB to DRIP tokens.

Just make sure your wallet is still connected at the top right, choose the amount of BNB you want to swap, and hit the Buy button.

Remember that buying DRIP incurs a 10% tax, this goes into the Tax Vault and keeps the ecosystem healthy!

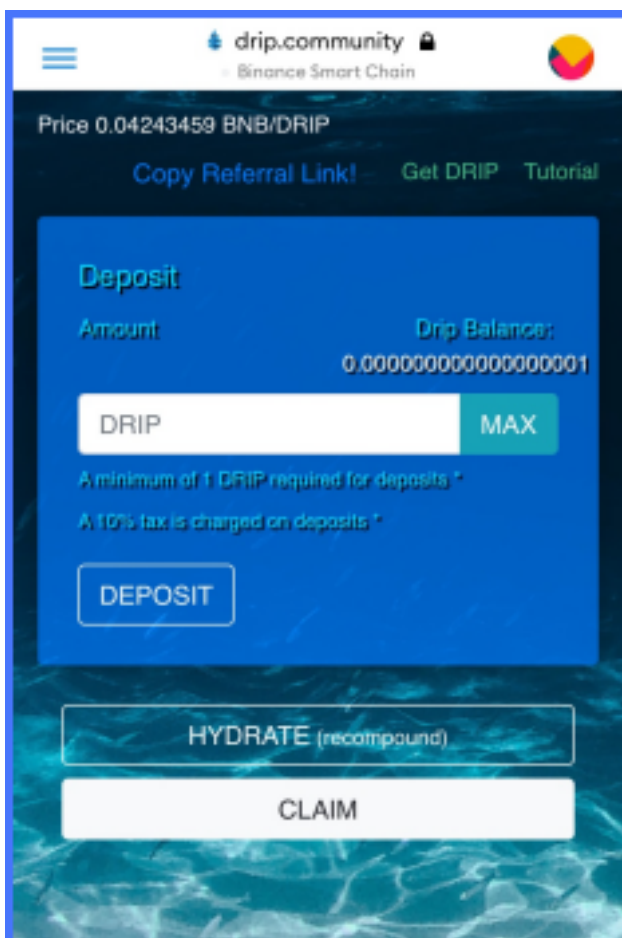

Screenshot from the [DRIP.community](https://drip.community) Swap page

## Stake/Hydrate Daily!

In order to start earning your 1% DRIP per day, you need to add your DRIP tokens to the Faucet contract by depositing the amount you want to, using the Deposit box on the Faucet page.

You can also use the buttons below this box to Hydrate (compound) or claim/withdraw your DRIP tokens. You might want to wait a few days before hydrating if you only have a small balance. It doesn't make sense if the transaction fee costs you more than the amount you're hydrating, but remember that the more you hydrate the more you earn each day.

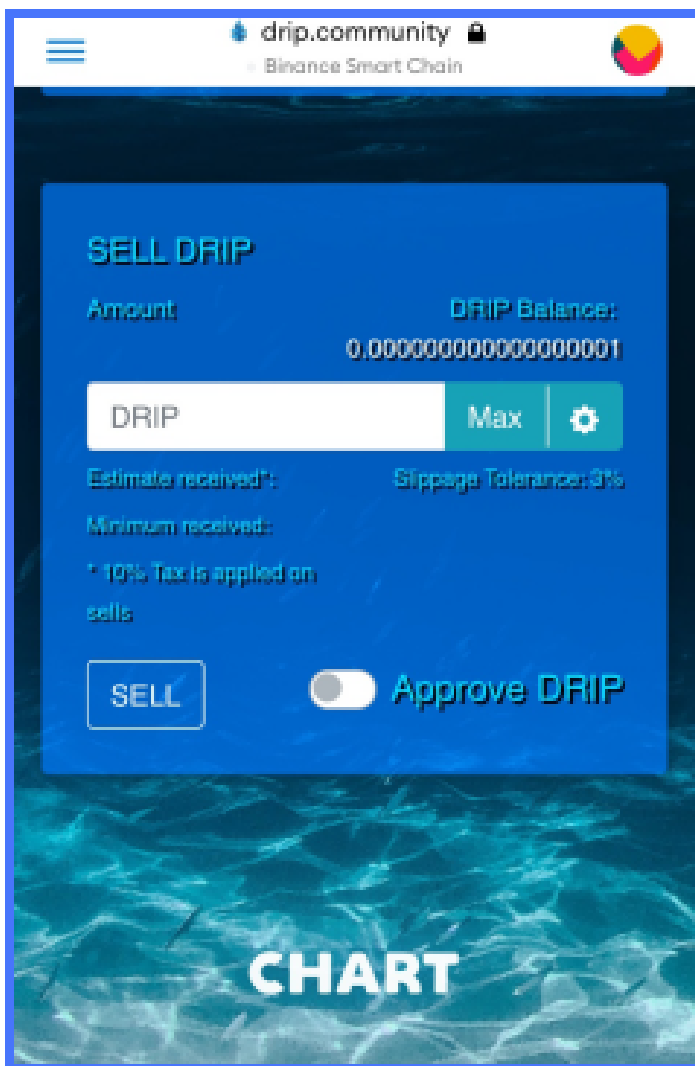

The screenshot shows the 'drip.community' faucet interface on a mobile device. At the top, it says 'drip.community' and 'Binance Smart Chain'. Below that, it shows the price '0.04243459 BNB/DRIP' and links for 'Copy Referral Link!', 'Get DRIP', and 'Tutorial'. The main section is titled 'Deposit' and features a 'Drip Balance' of '0.000000000000000001'. There is a text input field with 'DRIP' and a 'MAX' button next to it. Below the input field, it states 'A minimum of 1 DRIP required for deposits \*' and 'A 10% tax is charged on deposits \*'. A large 'DEPOSIT' button is at the bottom of the deposit section. Below the deposit section, there are two more buttons: 'HYDRATE (recompound)' and 'CLAIM'. The background of the interface has a blue and green abstract pattern.

*Screenshot from the [Drip.community](https://drip.community) Faucet page. Use this box to make deposits. Below to hydrate and claim.*

## Profit!

When your Available balance has built up to a level that you are happy with you can sell DRIP back to the contract for BNB and sell it through an exchange to get your Cash money!

Remember that selling DRIP incurs a 10% tax, this goes into the Tax Vault and keeps the ecosystem healthy!

Screenshot from the [DRIP.community](https://drip.community) Swap page

## Buy BR34P

If you would like to earn rewards from having a team, make sure that you have at least 2 BR34P tokens in your wallet to have unlimited direct (first level) referrals under you.

For more levels see the chart below taken from the DRIP whitepaper.

DOWNLINES ACCESSIBLE	BR34P IN WALLET
1	2
2	3
3	5
4	8
5	13
6	21
7	34
8	55
9	89
10	144
11	233
12	377
13	610
14	987
15	1597

*Screenshot from the DRIP whitepaper*

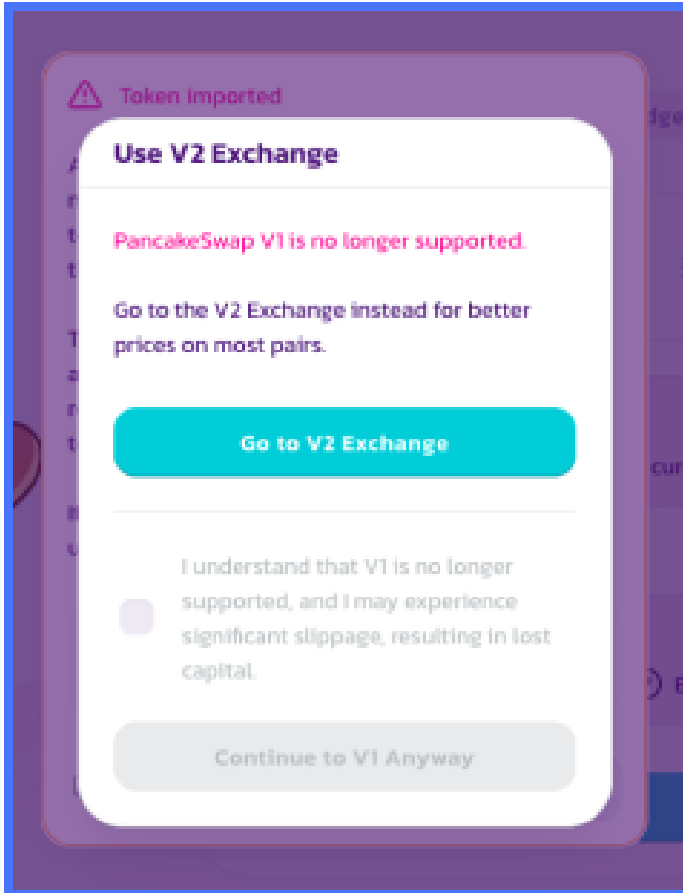

In order to buy BR34P, you should visit the V1 Pancake Swap page that has been linked from the Drip.community site.

Make sure to use V1 even though there is a warning that it is no longer supported, it is!

There is a box that looks greyed out and unclickable, but it is! Accept the warning, set slippage to 2–3% and buy your BR34P.

Hold this in your wallet, that is all you need to do!

[drip.community/faucet?buddy=0x321c76e7649D3F334582355273C3e347f62D2E27](https://drip.community/faucet?buddy=0x321c76e7649D3F334582355273C3e347f62D2E27)

*Screenshot from Pancake Swap — Click the box next to 'I understand V1 is no longer supported' then the Continue button.*

## **Invite friends and family to the DRIP Network**

Once you're on board with DRIP and see that it works exactly as promised, spend a few nights lying in bed awake at night thinking about the possibilities... Then start to tell your friends and family about the DRIP Network! Lots of people won't be interested, it's just the way it is. But if you don't tell them they might never know!

You're welcome to send this How-To Guide to them. You can give them your Buddy address, as hopefully, you're in our team. We'll be happy to help them get started with DRIP :)

## **Rinse, Repeat!**

Keep repeating the steps above to hydrate regularly to grow your Deposit. Invite more people as your Deposits grow and you start to feel the potential of your life-changing in amazing ways!

Remember to buy more BR34P if the people you invite add people below them...

## **DCA**

DCA means 'Dollar Cost Average', and just means to keep buying more DRIP at regular intervals with an amount that you decide, no matter the price!

This is a good way to build up your deposit more quickly so you can reap the benefits sooner!

## **Parent wallets**

It's important to mention here that there is a hard maximum amount that can be withdrawn from any wallet. This amount is 100K of DRIP. Once your account reaches this level it will no longer pay out, this is built into the Smart Contract to stop people from draining the Tax Vault.

As you approach this number, you can start to put your deposits into new wallets below your Parent wallet, to increase the longevity of your accounts.

By this stage, you'll be a DRIP expert and probably won't be reading this How-To article, but it's something worth having in mind for later down the road.

Just make sure to have enough BR34P in your wallets to take full advantage of the different levels.

## Calculators

Here are a selection of DRIP calculators, including the famous DRIP Guide spreadsheet and explainer video linked in the top right of the sheet. Check them all out at [DRIPplayers.com](https://dripplayers.com)

Watch the video and experiment with different scenarios in the calculator. Just make a copy of the calculator first, and then start your working out! I think you'll be pleasantly surprised when you look a few months ahead!

## **That's the full DRIP Players Step-By-Step Guide to DRIP.**

We hope you've enjoyed it!

Please sign up to the DRIP Faucet with DRIP Players using the following Buddy Link:

[drip.community/faucet?](https://drip.community/faucet?buddy=0x321c76e7649D3F334582355273C3e347f62D2E27)  
[buddy=0x321c76e7649D3F334582355273C3e347f62D2E27](https://drip.community/faucet?buddy=0x321c76e7649D3F334582355273C3e347f62D2E27)

If you'd like to join the Drip Players team, please visit us at the Drip Players Telegram group and we can support you to get setup with your DRIP Faucet account.
