

WAVpoolX™

-The BLACKPaper-

The Next-Generation **Social Music dApplication**,
Audio NFT Marketplace & Music Advocacy Platform.
An innovative **DAO** powered by DAODAO.io

ABSTRACT

WAVpoolX was created to empower innovation in the audio creation market. Enabling audio creators with not only a vehicle and toolset to empower their supporters, but also by reinvigorating the relationships at the intersection of fan, investor & creator.

By immersing into one of the many metaverses, WAVpoolX can extend from the Web2 to Web3 model of community collaboration and incentivize creators, fans & investors to interact daily.

Our **WAVPoolX drop-in audio/visual dApp** for Web, Mobile & Metaverse will feature a premiere platform, enabling social tipping & NFT monetization features of the DeSo blockchain. This means artist's music & creative audio can be monetized via tips per stream or by the sales of music NFTs tied to utility & endless opportunities supporting the creator directly on-chain.

As a Decentralized Autonomous Organization, **WAVpoolXDAO** will offer a **DAO coin** representing the tool for Music Advocates to govern the path of Advancement, Acquisition & Promotion of independent audio creators. This will include IRL & metaverse special events, marketing and continuous dApp development.

The "**SmartCharts**" analytics tool by *DeSoNinja* will allow for revolutionary metadata collection & reporting for the "**SmartCharts 500**", an *OpenProsper* list featuring the top Music & Audio NFT creators by Likes, Diamonds, Comments and NFT sales categories. Bonus Rewards, Coin Offerings and NFTs can be awarded to chart toppers on a continuous basis based on an auditable & secure trustless ledger.

DISCLAIMER: *This document is intended to be a living document to reflect the relationship between the original vision of the founders of WAVpoolXDAO, its intellectual property and the direction of WAVpoolXDAO by its members. In no way is this document in its final form and is here for reference for all future development of WAVpoolX the dApp, DAO governance platform, coins and future products & services.*

FORWARD LOOKING STATEMENT

Nothing in this BLACKpaper is, or should be relied on as, a promise or representation as to the future. This BLACKpaper presentation contains forward-looking statements, which reflect the views of the WAVpoolXDAO with respect to, among other things, the WAVpoolXDAO operations. The reader can identify these forward-looking statements by the use of words such as “believe”, “expect”, “potential”, “continue”, “may”, “will”, “can”, “could”, “should”, “seek”, “approximately”, “predict”, “intend”, “plan”, “estimate”, “anticipate” or other comparable words. These forward-looking statements are subject to various risks, uncertainties, and assumptions. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements.

Should any assumptions underlying the forward-looking statements contained in the BLACKpaper prove to be incorrect, the actual outcome or results may differ materially from outcomes or results projected in these statements. None of the Company or any of their respective affiliates undertakes any obligation to update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by applicable law or regulation. Certain information set forth in this presentation contains “forward-looking information”, including “future-oriented financial information” and “financial outlook”, under applicable securities laws (collectively referred to herein as forward-looking statements).

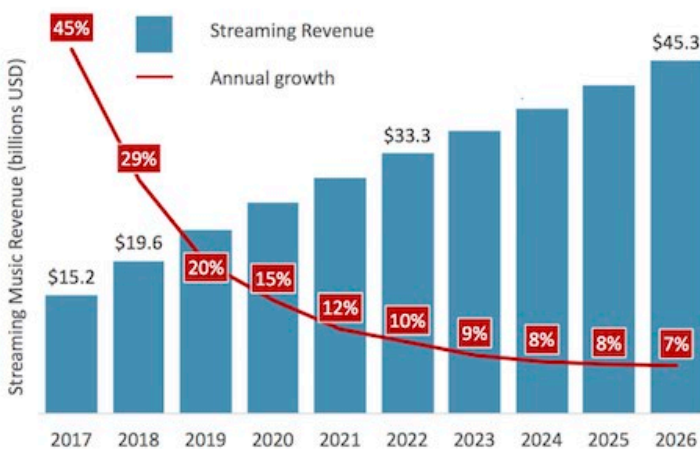

Except for statements of historical fact, the information contained herein constitutes forward-looking statements and includes, but is not limited to, the (i) projected financial performance of WAVpoolXDAO; (ii) completion of, and the use of proceeds from, the sale of the shares being offered hereunder; (iii) the expected development of WAVpoolX's business, projects, and joint ventures; (iv) execution of WAVpoolXDAO's vision and growth strategy, including with respect to future financial activities and global growth; (v) sources and availability of third-party financing for the WAVpoolXDAO's projects; (vi) completion of the WAVpoolXDAO's projects that are currently underway, in development or otherwise under consideration; (vi) renewal of the WAVpoolXDAO's current customer, supplier and other material agreements; and (vii) future liquidity, working capital, and capital requirements.

Forward-looking statements are provided to allow the reader the opportunity to understand WAVpoolXDAO's beliefs and opinions in respect of the future so that they may use such beliefs and opinions for information purposes. These statements are not guarantees of future performance, and undue reliance should not be placed on them. Such forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause actual performance and financial results in future periods to differ materially from any projections of future performance or result expressed or implied by such forward-looking statements.

Although forward-looking statements contained in this presentation are based upon what management of the WAVpoolXDAO believes are reasonable assumptions, there can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. WAVpoolXDAO undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change except as required by applicable securities laws. The reader is cautioned not to place undue reliance on forward-looking statements.

By 2022 Streaming Revenue Will Be Larger than the Entire Recorded Music Market Was Worth in 2018

Global Streaming Music Revenue By Segment, Retail Values 2017-2026, Global

2017 was the last year of strong streaming revenue growth. From 2018 onwards streaming growth will lessen each year, falling from 29% in 2018 to 7% in 2026

The slowdown in revenue growth reflects maturation of developed streaming markets such as the **US, UK, Sweden, Netherlands and Australia**

Longer term growth will be driven by emerging markets such as **Brazil, Mexico and India** as well as later adopting major markets **Germany and Japan**

Introduction

Since the beginning of time, the world's hardest problems for audio creators like musicians is they've often lacked the assurance their content, intellectual properties & legacies were wholly owned and protected by them for perpetuity. From the young, gifted & black musicians at the turn of the 20th century like Little Richard & Chuck Berry to modern day artists like TLC & Toni Braxton. Creators have often held the short end of the stick of ownership of their content & ultimately their legacy via shady contracts & ethically questionable management practices.

With the traditional music listening mediums of vinyl, tape, and compact discs all but gone. New digital forms of music have all devalued the true worth of audio experiences with streaming platforms that disconnect the artists & fans for profit. Music has always been bootlegged, resold, and distributed for expensive costs to the artists, just to connect with consumers and fans that want to support.

Enter WAVpoolX, the future of the social music economy for independent audio creators.

Principles & Philosophy

Market & The Problem

The digitalization of music sales and consumption (and the introduction of streaming services) haven't had the disruptive effect on the industry that many had hoped. Artists and fans face many of the same barriers from the same entities that serve neither of their best interests, having inserted themselves once again between the artists and their fans and channels of distribution.

We believe the market is ready for a truly novel system that empowers them both. Blockchain technology offers solutions to many existing issues as well as innovative new ways for artists to distribute and monetize their music and connect with their fans, and we feel the DeSo blockchain is a perfect fit.

Product & The Solution

Our primary product is WAVpoolX, audio/visual NFT player; that exists in the form of a dApp (Decentralized Application) that will be tailor-made to showcase audio NFTs on the DeSo blockchain & beyond, in the best light. In order to ensure

creators, retain ownership of their music and are able to see the activity of not just their own NFTs simply and clearly but any NFTs on the platform, we will provide “Smart License” NFTs as an “IP protection” formula for artists in licensing their music on-chain.

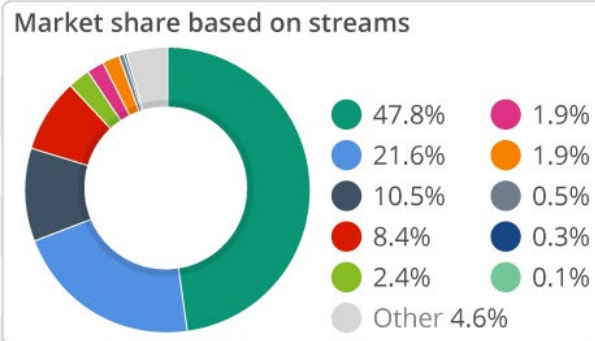

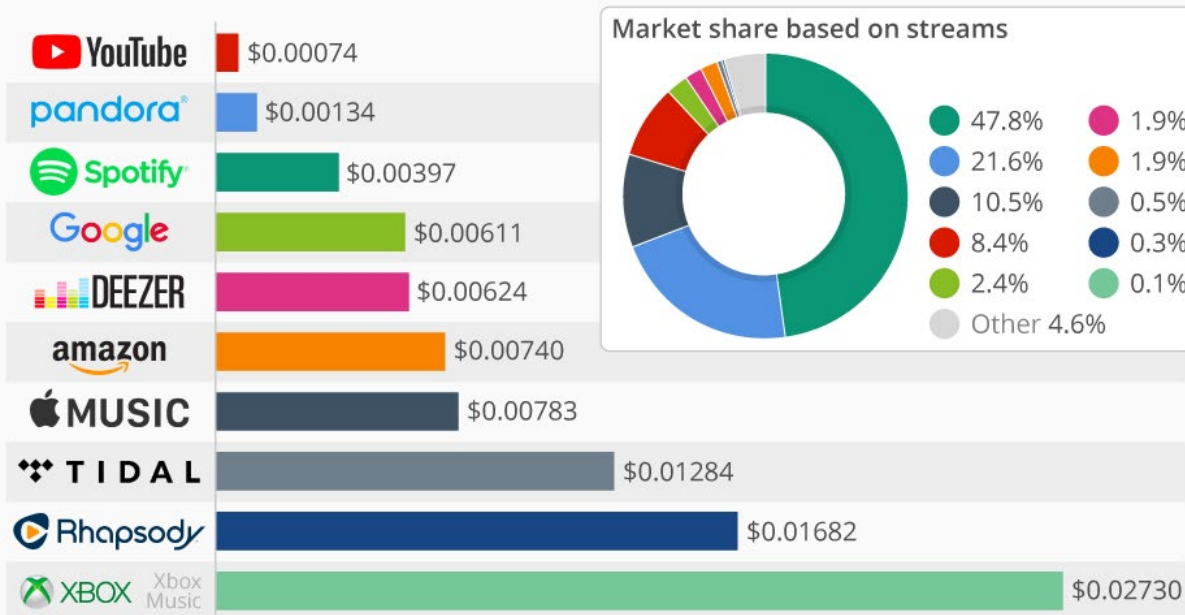

The relationship between Creator & Fans will forever be changed in the years to come, with the advent of direct-to-consumer platforms for creators to showcase their content while nourishing a relationship consistently with fans, supporters & investors on-chain in decentralized communities.

WAVpoolX aims to allow creators to harness the power of smart services in creating Smart License NFTs that will serve as permanent contract ledgers and to aggregate and analyze the data to produce “SmartCharts”.

On-chain charting and playlisting removes the veil from streaming data and assures artists are compensated equally & rewarded fairly for the consumption and sales of their work on-chain.

Music-Streaming: Who Pays Best?

Gross payout to labels per stream by selected streaming services*

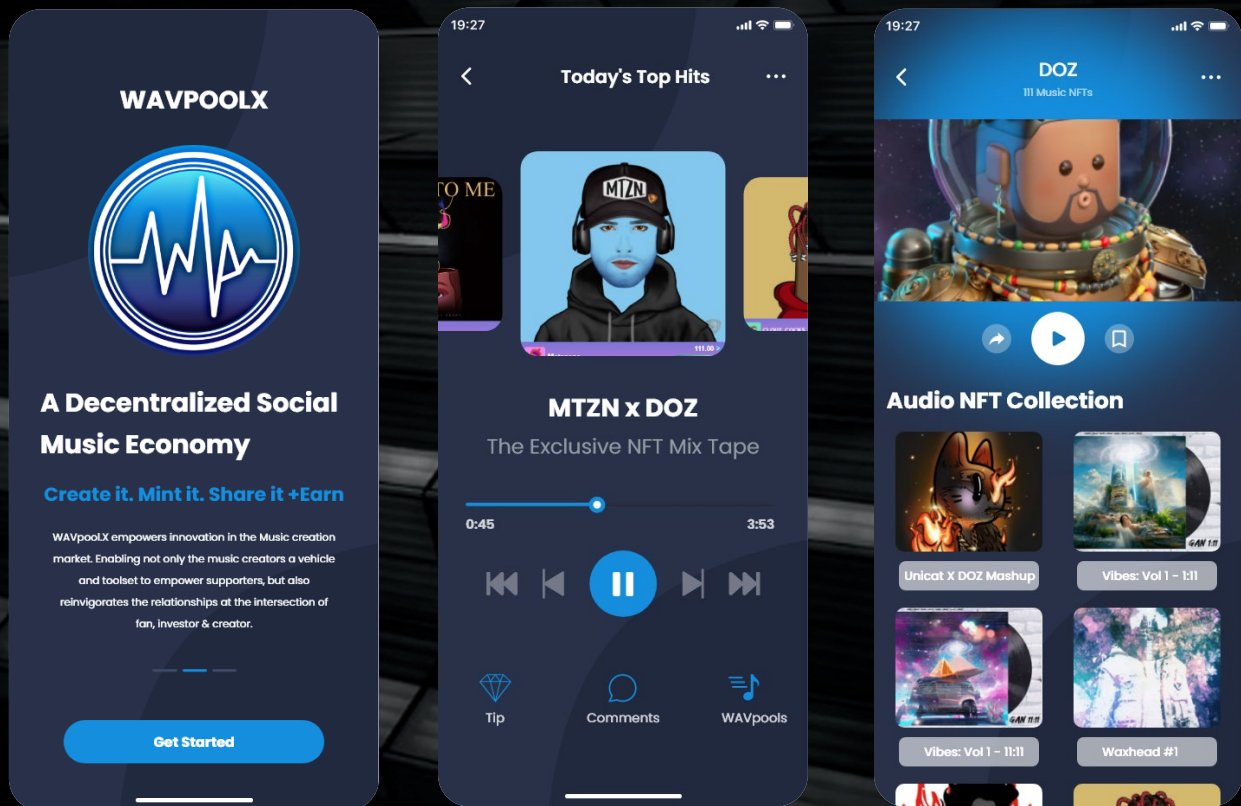

* Data based on a mid-sized indie label with an approximately 200+ album catalog now generating over 200m+ streams annually.
 Source: The Trichordist

Core Products & Solutions

WAVpoolX - Audio & Visual NFT Player

The WAVpoolX dApp will allow creators to mint their contracts, licenses, and digital assets on-chain, while unlocking the monetizing potential for fans, collectors and supporters to tip, comment, and purchase NFT's directly from the creators. Streaming audio & visual NFT's directly to users on web, mobile and metaverse applications allows for a truly immersive user experience with the content playable in 3D virtual & spatial audio environments.

Users can earn **\$WAVZ**, the in-dApp currency as rewards and exchange for \$DeSo \$ETH and other crypto. All just for listening to NFT's and engaging through active voting in the dApp with engagement activities like tipping, commenting, liking and purchasing NFTs.

Smart License NFTs

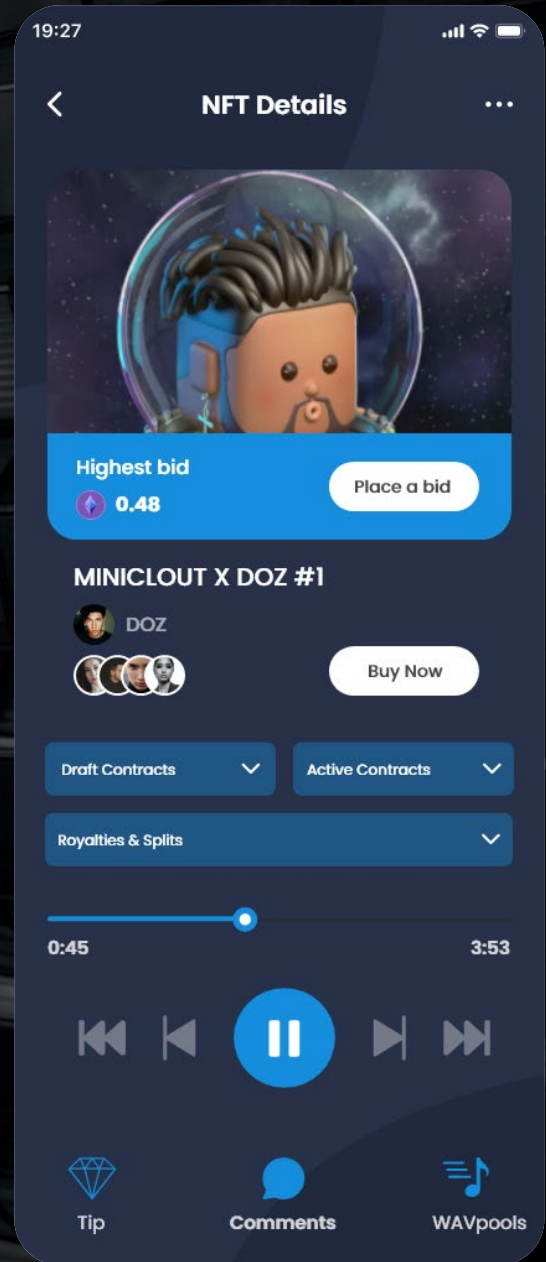

Creators mint their own personal contracts & licenses from a wide range of template guides created for the owner to document binding documents of ownership. Ultimately any artist can wrap their NFT in an exclusive contract executable between two or more parties.

The wide range of **SMARTtemplates** enable access to the fundamental streams of revenue for audio creators including but not limited to the following licenses:

- Composition (Lyrics/Melody/Beat)
- Copyright Assignment
- Derivative Rights
- Film Score Composer Agreement
- General Contract Release
- Master Use License
- Mechanical Licensing
- Music Publishing Agreement
- Public Performance Licensing
- Publishing Administration Agreement
- Songwriter Split Sheets
- Synchronization Licensing
- And more...

Royalties and splits can be predetermined by the creator to allow for long-term secondary sales with proper allocations to the intended wallets.

WAVpoolX charges a 5.555% fee on all transactions on the dApp to cover planning, maintenance, and operational costs.

SmartCharts

The SmartCharts 500 is a constant, open & trustless report of the Top 500 Audio-Visual NFT Creators on-chain. This daily tally of likes, comments, tips and NFT purchases takes into account a creator's increase of followers each week as well as that creator's total contribution to the ecosystem via posts, comments, NFTs, and coin purchases.

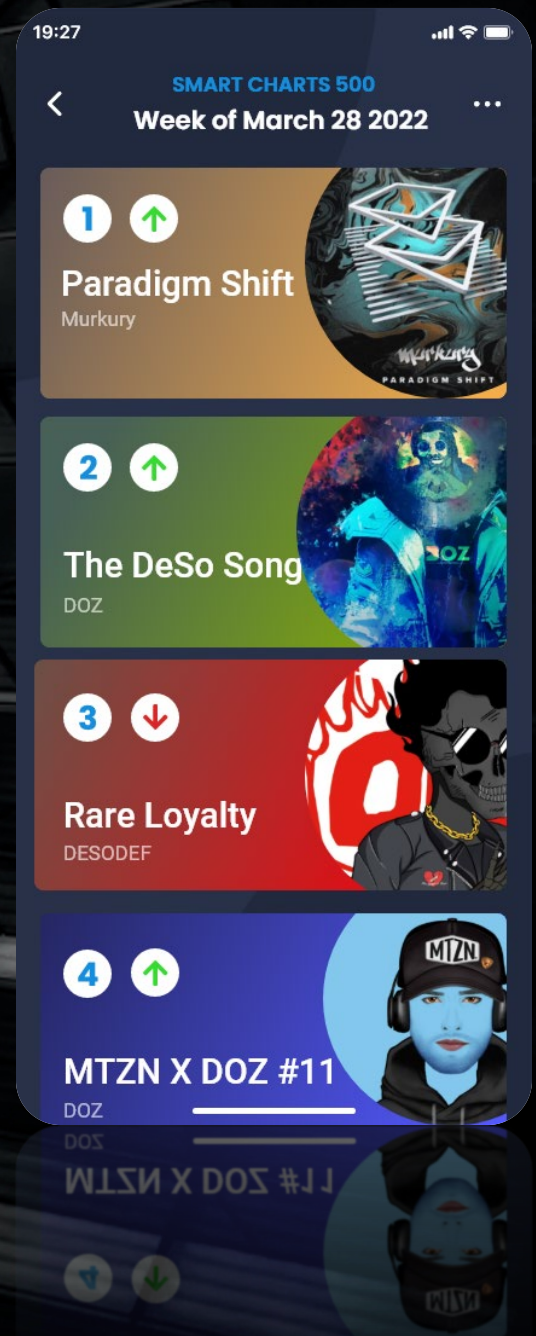

Each quarter creator candidates for the SmartCharts500 are awarded \$WAVZ based on their placement on the charts. Each reward is automatically distributed after vote by the WAVpoolXDAO. Rewards are paid via 2.222% fee paid from all transactions on the dApp.

Across all platforms, every user votes on the placement of music on the SmartCharts and earns to listen.

The Annual SmartCharts NFT Awards will showcase the best artists in Decentralized Creator economies across Web3. With dozen of categories in Music, Audio and Multimedia experiences. Award winners will earn \$WAVZ, perks, marketing opportunities and exchange benefits for staked NFTs and DAO coin holdings.

WAVpoolXDAO

The WAVpoolX dApp is a separate tool from the music advocacy DAO and it's dApp portal on the WAVpoolX dApp. DAO members will hold a variety of tools for governance, security, and economy. Citizens of the DAO can communicate, vote, and propose on-chain.

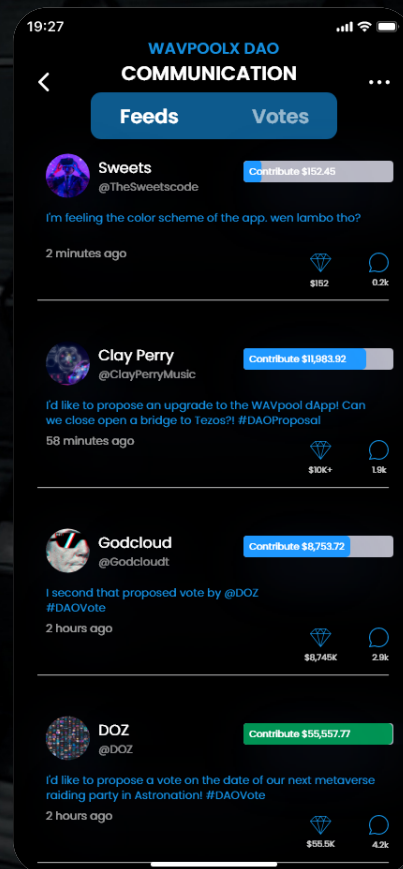

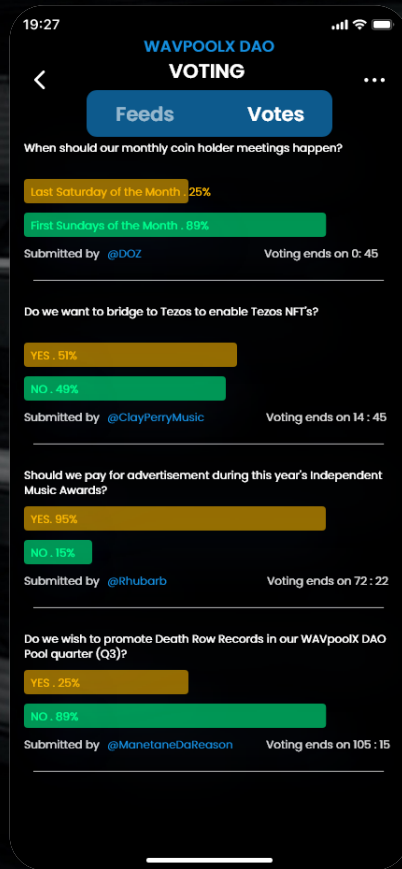

WAVpoolXDAO Coins

The launch of WAVpoolX will begin with the presale of FIRSTWAV NFTs. Each NFT will represent a set amount of coin available for presale participants at a 10% discount of the Founder's fee. After presale, coins will be available at full price.

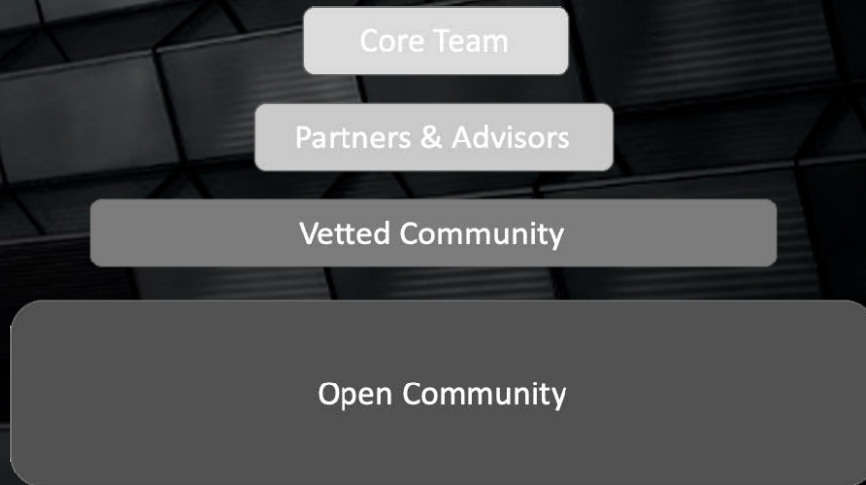

Key Features:

- Open Proposals, Permissionless and Trustless Voting
- dApp Membership Upgrades + Perks for NFT Holders
- IRL + Metaverse Promotions, Marketing & Events for NFT Holders

2.2 million DAO Coins are minted at Launch. Future minting & burning will be decided by the DAO via proposal and formal vote on the dApp.

DISCLAIMERS

LEGAL DISCLAIMER:

The information provided in this document and the corresponding website does not constitute investment advice, financial advice, trading advice, or any other sort of advice and you should not treat any of the website's content as such. WAVpoolXDAO does not recommend that any cryptocurrency should be bought, sold, or held by you. Do conduct your own due diligence and consult your financial advisor before making any investment decisions. By purchasing WAVpoolXDAO coin (WAVpool) or any other project on the DeSo blockchain, you agree that you are not purchasing a security or investment and you agree to hold the WAVpoolXDAO harmless and not liable for any losses or taxes you may incur. You also agree that the WAVpoolXDAO is presenting the coins "as is" and is not required to provide any support or services.

You should have no expectation of any form from WAVpoolXDAO and its board members. Although WAVpoolXDAO coin and all the other coins launched via WAVpoolXDAO's coin are EXPERIMENTAL coins for social experiment and not a digital currency, WAVpoolXDAO strongly recommends that United States persons do not purchase it because the WAVpoolXDAO cannot ensure compliance with United states regulations. Always make sure that you are in compliance with your local laws and regulations before you make any purchase.

RISK DISCLOSURE:

Please note there are always risks associated with smart-contracts & smart-services. Please use at your own risk. WAVpoolXDAO is not a registered broker, analyst, or investment advisor. Everything that we provide on this site is purely for guidance, informational and educational purposes. All information contained herein should be independently verified and confirmed. We do not accept any liability for any loss or damage whatsoever caused in reliance upon such information or services. Please be aware of the risks involved with any trading done in any financial market. Do not trade with money that you cannot afford to lose. When in doubt, you should consult a qualified financial advisor before making any investment decisions.

COIN DISTRIBUTION DISCLAIMER

To any and all prospective holders, purchasers, assignees, or transferee (“You” or “Your”, as applicable) of the WAVpoolXDAO coins, WAVPoolX DRC-420 (“WAVpoolXDAO Coins”), by your participation in the relevant coin distribution and interaction with the materials herein and with the WAVpoolXDAO coins themselves, You acknowledge Your understanding and agreement with the disclaimers herein:

You represent and warrant You are not: (i) in violation of any laws relating to economic sanctions, anti-money laundering, or anti-corruption; (ii) restricted or prohibited in dealings by a global sanctions authority (including but not limited to the Security Council of the United Nations, the European Union, or the U.S. Office of Foreign Assets and Control) (a "Sanctions Authority"), (iii) a citizen of or domiciled in a jurisdiction where it would be illegal according to Applicable Law for you to access or use the WAVpoolXDAO Services or WAVpoolXDAO SWAP Trading Platform; (iv) a citizen of or domiciled in (at any time) a country sanctioned by a Sanctions Authority including, but not limited to, Cuba, Iran, Syria, North Korea, and the Crimea region of Ukraine; (iv) located, incorporated or otherwise established in the United States of America (including its territories and dependencies, any state of the United States and the District of Columbia) and not a “U.S. Person” as defined in Regulation S under the U.S. Securities Act of 1933, as amended; or (v) intending to transact with any restricted jurisdiction.

WAVpoolXDAO has undertaken commercially reasonable screening measures, to the extent possible in a distribution performed by a decentralized exchange and accompanying DAO, to prevent any excluded persons or jurisdictions from participating in the sale, but as an additional measure relies upon Your representation that You are not excluded from participation in accord with the foregoing. If WAVpoolXDAO determines that you are accessing the Services or the Trading Platform from any restricted jurisdiction or have given false representations as to your location of incorporation, establishment, citizenship, or place of residence, WAVpoolXDAO reserves the right to close any of your WAVpoolX affiliated accounts immediately and liquidate any open positions.

In addition, you agree that you will not knowingly transfer WAVpoolXDAO coins to any person described in clause (iv) above.

Definitions

In these Terms:

“Applicable Law” means all civil and common laws, statutes, subordinate legislation, treaties, regulations, directives, decisions, by-laws, ordinances, circulars, codes, orders, notices, demands, decrees, injunctions, resolutions, rules and judgments of any government, quasi-government, statutory, administrative, or regulatory body, court, agency, or association by which any member of WAVpoolXDAO or you are bound in any jurisdiction applicable to the receipt or performance of the Services.

“Services” means websites, applications and any services provided by WAVpoolXDAO.

“Trading Platform” means the trading platform on WAVpoolX.io and subdomains, mobile applications, APIs and other media owned by WAVpoolXDAO relating to the trading platform.

WAVpoolXTM

Pillars of WAVpoolX

Licensing & Ownership

Music NFT's Minted & Licensed for Web 2 + Web 3 Ownership by Music Artists & Creators.

Artists own 100% control of Smart Licenses, Service Royalties & Coin Holder Rewards.

Discovery & Curation

Music NFT's curated into Discovery Pools for accessibility & virality. The more an NFT gets likes, user pools are curated to view a range of NFTs based on metadata traits. Users earn \$WAVz to listen & vote for their favorite audio NFT creators.

Drop-In Audio NFT Player & SmartCharts

The WAVpoolX Audio + Visual NFT player is available for use on Web, Mobile & OpenXR Metaverses.

DAO Coins & Web 3 Layered Promotions

DAO's collect and promote NFT's. Independent DAO's can curate unique talent pools of affiliated Audio NFT Artists via DAO specific Pools (i.e.; Collectives & Record Labels).

Likes & Diamonds from social engagement creates smart charting data from active users & DAO pools to coalesce into the contenders for the Annual SmartCharts NFT Awards.

All Likes, Diamonds & NFT sales data populates WAVpoolX's **SmartCharts** and fuels rewards & awards for the top creators.

WHAT IS WAVpoolX ?

The future of music creators, fans, and investors...on the blockchain.

The foundation of WAVPoolX allows for innovation in the Music creation market. Enabling not only the music creators a vehicle and toolset to empower their supporters, but also reinvigorates the relationships at the intersection of fan, investor & creator.

1

A Drop-In Audio NFT Experience for Web 3

Our WAVPoolX drop-in audio experience for Web, Mobile & Metaverse will feature the premiere social tipping & NFT features of the DeSo blockchain. This means artist's music can be self-monetized via Diamonds (/ \$DeSo) or the music they tie in utility & merch opportunities to NFT purchases.

2

A DAO for Music Advocacy

As a Decentralized Autonomous Organization, our DAO coin will represent a tool for Music Advocates to govern the path of Advocacy, Acquisition & Promotion. This will include special events, marketing & continuous app development, as well as special airdrops & promotions for DAO citizens.

3

A SmartCharts Analytics Tool for Music & Art

The SmartCharts analytics tool will allow for revolutionary metadata collection & reporting for the "SmartCharts 500" an OpenProsper list featuring the top Audio NFT artists by Likes, Diamonds, NFT sales and more. Rewards, Coin Offerings and NFTs can be awarded to chart toppers on a continuous basis.

4

A Community of Creators, Fans & Investors

Thanks to the powerful & solid DeSo blockchain community. Creators, fans & investors can interact daily via social platforms like Supernovas.app or by immersing into one of the many metaverses that extend from the Web2 to Web3 models of community engagement (i.e.; Discord, Entre, Clubhouse, DeSoverse and AstroNation).

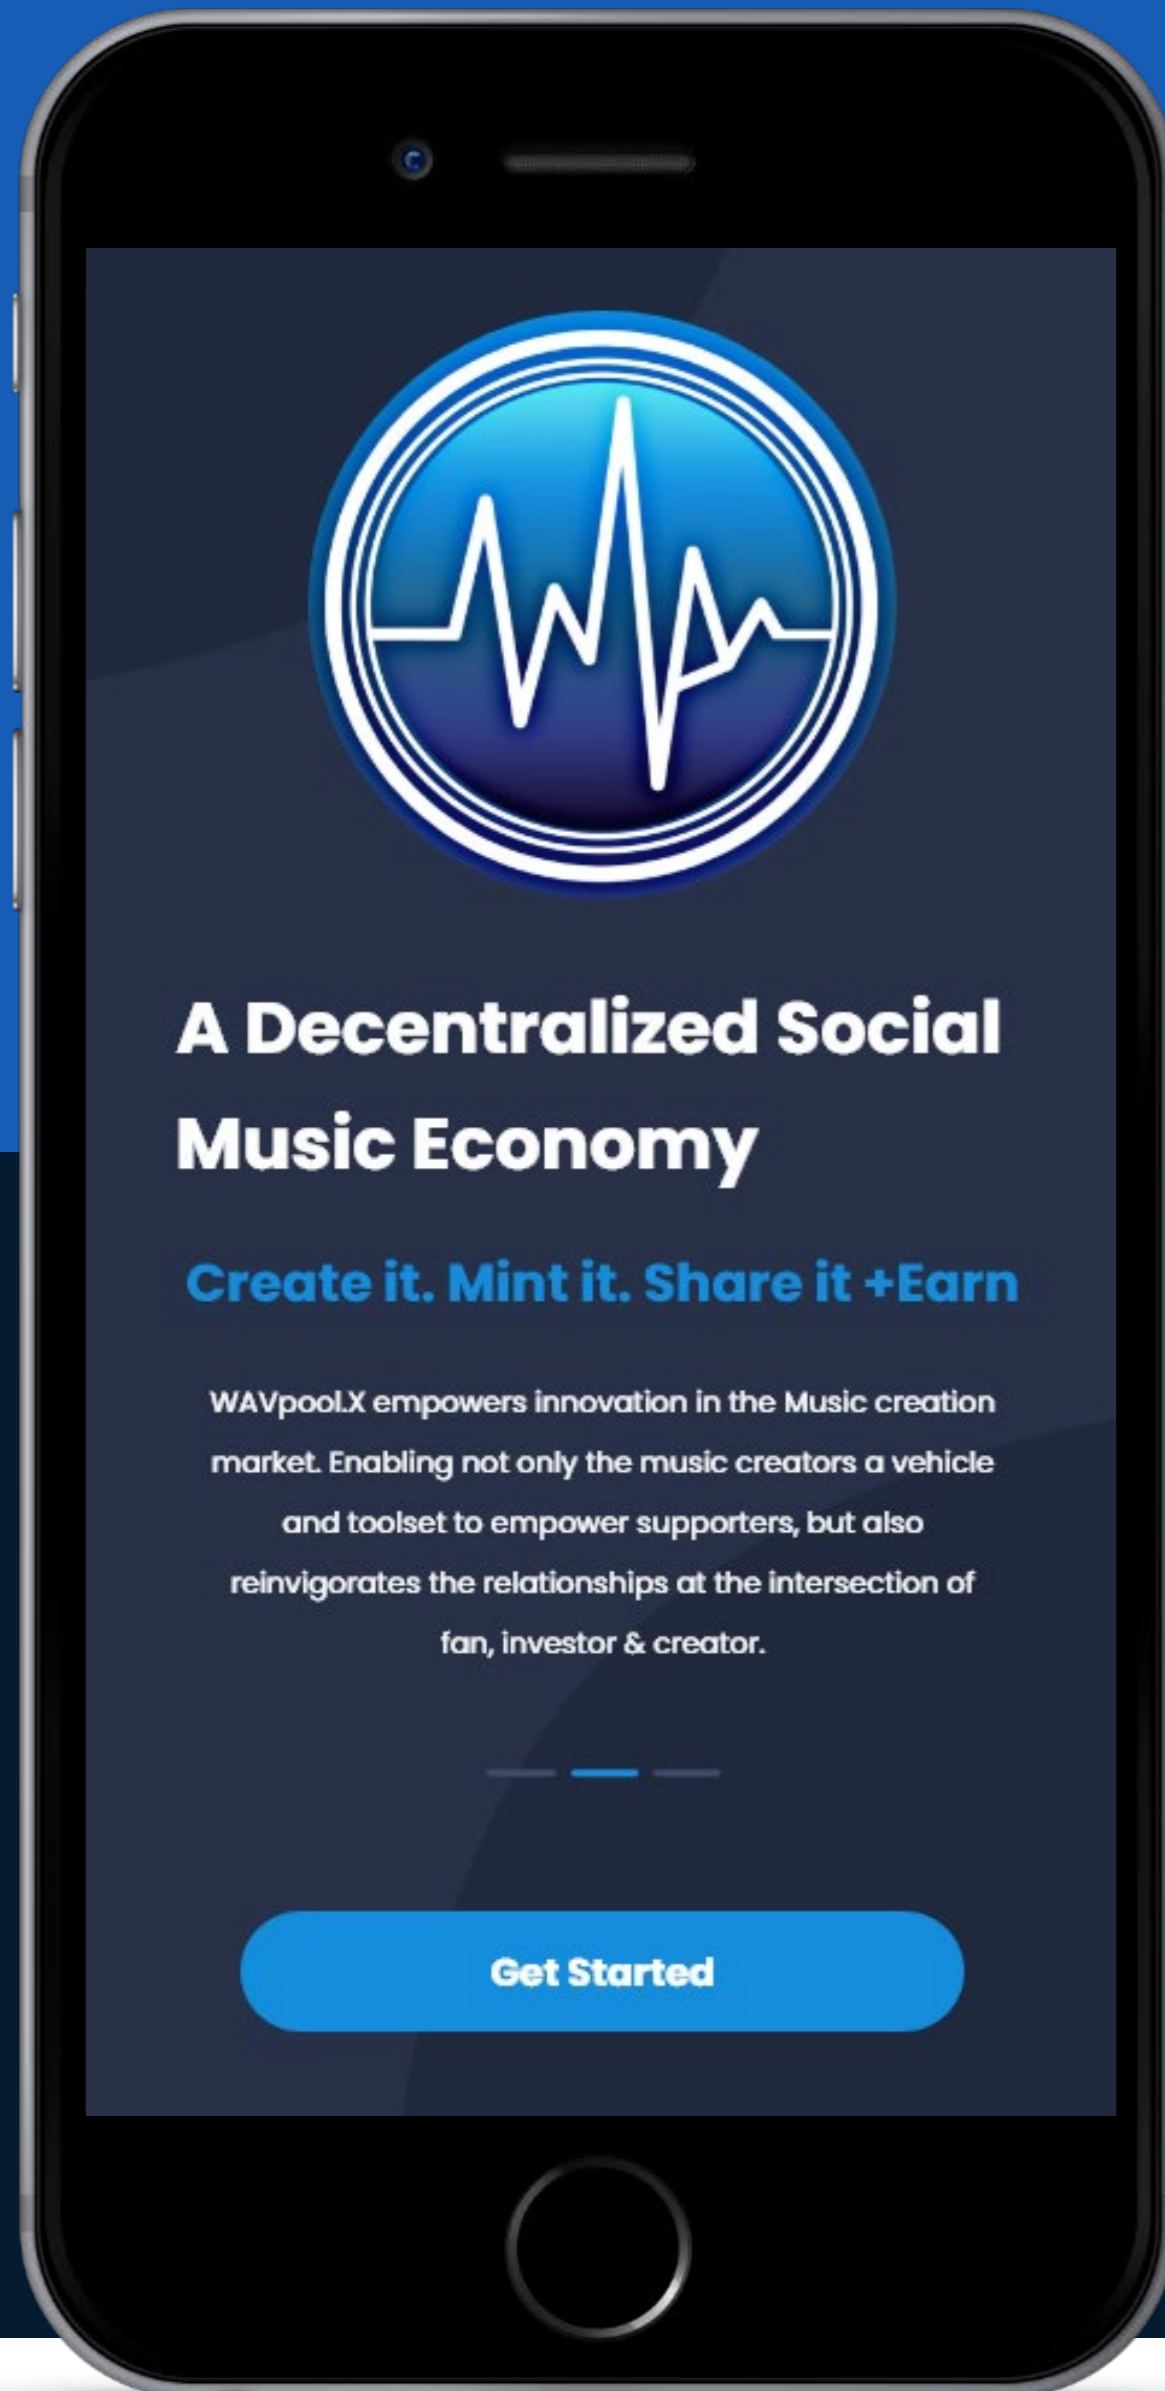

THE WAVpoolX STREAMING NFT ECOSYSTEM

BUILT ON DESO WITH ARWEAVE INTEGRATION

Our goal... to connect consumers, fans and investors with community through Web3 technology & strategic partnerships with independent musicians, creatives and metaverses while increasing discoverability and driving more business to independent audio creators through trustless innovation and Web3 monetization.

“For listening & curating your Music NFT collection...”

Metadata Curation Areas

The key functions of WAVPoolX.

- A robust audio-visual streaming app for Music NFTs throughout Web3. Offering flexibility, discovery & monetization for Creators.
- Stream, Tip, Buy & Bid on Music NFTS in real-time direct with the Artist.
- All with a social media feed for comments & feedback from real listeners.
- Build a catalog & support your favorite artists by owning their NFTs as they climb the "Smart Charts 500" via likes, tips & following...
