FASTFINAID

Case: 48327   FAFSA Change report

New FAFSA Change Report (Info by Aid Year menu) displays most recent application received and the current application information where the two sequence numbers are different. The purpose of this report is to identify EFC changes and/or when a new C Flag comes in on a newer app.

Case: 48328   ISIR Comment report

New report shows ISIR Comment Code information by student (Info by Aid Year menu).

Client specific cases may or may not appear in this list, depending on their impact on the baseline applications and / or site specific settings.

Global Changes That Affect All Applications

Case: 47233   Unique Records checkbox becomes disabled

Fixed a bug on the Advanced Options tab where the "Display only unique records" checkbox would not become re-enabled after removing/no longer using Group Functions.

Case: 48516   Add Tooltip on Search Box Multi Filter Compare Options

Added a tooltip to the SearchBox Multi filter with some helpful usage tips:

- Click the magnifying glass icon to search.
- If you know a specific value, you can type it in without searching.
- Entering a comma separated list of values will split automatically into individual values.
- Enter a : to set a range, for example A:Z.
- Enter a % for a wildcard, for example A% (starts with) or %Z (ends with) or %A% (contains).

Case: 48797   Query comments

Fixed a bug when saving a query in the Query Builder and specifying comments: if more than 100 characters of comments were entered an error would appear stating that the max length is 4000 characters. You can now properly add comments longer than 100 characters up to a maximum of 4000 characters.
