FASTJV

Case: 46298   Update "Recurring Dates" Calendar on Document Page

On the Document page, the "Recurring Dates" calendar was replaced with a newer calendar.

Case: 46338   JV auto-reversing false positive errors

Cleaned up false positive silent errors from the error log when an auto-reversing JV attempted to be posted to a fiscal period that is not yet open.

Global Changes That Affect All Applications

Case: 46455   Pinned Reports Admin Report issue

An error causing '# with View/Edit Access' column to display incorrectly has been resolved.

Case: 46562   Add visual indicator to Document Chat button to indicate if a chat dialogue exists

Added a visual indicator to indicate whether a chat exists/existed for that document. Currently this is used with WebReq (Requisition) and Student (Grade Approval) .

Case: 46563   Set XLSX output row height

Created a global system wide configuration setting #5105 "Default XLSX export row height" under Site Administration to control the row height setting when exporting reports to Excel.

Case: 46570   Default negative values in filters

Fixed a bug when a Numeric Comparebox filter was set to be mandatory but did not have a range set: the default value of the filter would show as -999999999999.99. It will not show a default value of 0.

Client specific cases may or may not appear in this list, depending on their impact on the baseline applications and / or site specific settings.
