About TOPMEX

We are a specialised mechanical and project management services provider in the energy, petrochemical, oil and gas, mining, construction, food and beverage sectors.

We are a turnkey solutions provider offering mechanical, welding, industrial services and project management capabilities for maintenance and shutdown needs of the largest and most complex industries that keep our continent active.

With partner service providers that boast 30+ years' industry experience and an unrivalled safety record, Topmex provides full oversight – bringing greater efficiency to your maintenance and shutdown requirements.

**Topmex is a wholly owned subsidiary
of The Sekta Group**

Topmex's efficient maintenance services keep your business running smoothly.

Topmex's turnkey services gives clients the convenience of dealing with a single service provider to oversee your total planning, preparation, execution and commissioning phases with unparalleled efficiency - with less time lost due to greater coordination and communication. and unparalleled focus on safety.

We eliminate the need to coordinate multiple service providers for crucial maintenance exercises. Instead, Topmex's turnkey service gives clients the convenience of dealing with one trusted, experienced service provider to oversee the exercise with unparalleled efficiency and an impeccable safety record.

Safety

Topmex boast an extraordinary safety record which is a direct result of maintaining tight controls of any project we deliver. Keeping all required processes under Topmex's control provides a clear line of sight across various disciplines – which allows us to have superior management authority in place to ensure we can prioritise safety, in line with our values – and that makes all the difference.

Experience

We recognise that as a business owner, time is money and inefficient project delivery adds costs to the bottom line.

The Topmex team's industry experience is reflected in the speed at which requirements are accurately assessed and delivered. We arrive with a plan and the right tools to get the job done quickly, safety and cost-effectively.

Our bouquet of specialised services are all in-house. In fact, our competitors often sub-contract specialised services to business within the Sekta Group.
