

Coffee Table is part of (Objects) Flat Bar, a range of furniture designed and handmade in London. Flat bar steel is cut to length, and bent into curves and arcs that creates its simple form and structure. The frame is powdercoated to give a hard-wearing contemporary finish, and paired with a hand-turned Douglas Fir timber top. The soft rounded edges and expressive grain of the timber give each piece a tactile quality. As an organic material, the grain of the Douglas Fir can vary significantly, adding a unique character to each piece.

Oiled Douglas Fir +  
Powder Coated Steel

Not recommended for outdoor use.

Made to order in the UK  
Lead time 10 weeks
