

# Work Anywhere With Hotbox

Your guide to Hotbox products

# Meet the agile tools you didn't know you needed

The rise of agile workplaces and home working mean that staying put at the same desk all week is just not a reality for most of us, but the more movement we embrace the more efficiency matters. If you don't have the right tools, setting up for work can lead to a lot of wasted time.

Each Hotbox offers a different kind of ergonomic efficiency that empower individuals to be more effective, and organisations to be more productive.

# Seven products for seven different work styles

Hotbox products are designed to make sure that everyone can define their own workspace wherever and whenever they need to, quickly and efficiently.

Everyone has different work styles and work needs, inside the office and out. That's why there are seven different Hotbox products, each offering a different kind of ergonomic efficiency that empower individuals to be more effective in the agile working era.
