

Educator Workshops

Hook, Line, and Sinker

Engagement strategies in the classroom! How do we engage 21st century learners? How do we keep up with an evolving education sphere? Learn engagement strategies, delve into relationships and rapport in a digital world. Embed technology, music, staging, gamification, and passion in our noble profession! Life is fun; learning should be fun too!

Educational Experience in the Classroom

Our Educational consulting does more than talking. Our experienced teachers can go into a classroom and teach your class while you watch. It's truly professional development in action. We don't just tell you what to do, we show you how in real time. Think of your new teachers with a ton of potential.

The Family Classroom

Setting up a Family Classroom is essential in providing students a safe place to express their thoughts, feelings, and fears. Teach students how to speak, how to disagree respectfully, and how to be a part of a classroom family where everyone is included and celebrated. How do we reach our underserved populations? How do we keep up with an evolving education sphere? How do you not only survive, but thrive inside of a broken education system? Let's get down to it.

Untold Teaching Truths

This session is all about the untold secrets I wish I would have known when I started teaching in 2006. The secrets of a school building and a classroom, the hills that some teachers die on and burn out. Some kids come from trauma, and how do you, as the adult in the room, help our student population? Follow me as we explore the teachers to find and the teachers to avoid in your building.

Classroom Management

This is an overused term in education, but in reality, your kids won't learn unless they are safe and engaged. If you can't manage them, you can't teach them. Learn how to manage a classroom full of kids who may or may not come from trauma with kindness, love, and a sense of humor.

Full Day Workshop (Classroom Management And Innovation)

This workshop can either be a full day of hands on fun or we can pair it down to a half day of hands on fun. An emphasis on Management and Innovation. This is a great experience and customized for new teachers, emergency certified and alternatively certified teachers or any teacher that needs a little pick me up, and refresher on how we teach post-pandemic students.

Technology Addiction And How To Combat The Digital Heroin

This session is all about how to have balance in your classroom when it comes to technology. Unfortunately, the cell phone, ipad, chromebook, smart watches issues will continue to arise. How now shall we proceed? Come on and let's get down to it.

The Brain Based Classroom

Colors matter to the adolescent brain, movement matters- kids should never sit longer than their age in minutes! Let's discuss that underdeveloped prefrontal cortex and how to effectively engage a student's brain.

Professional Learning Communities

The Answer is in the Room! This session explores the powerful PLC partnership within a school. Data can be necessary in making sure all students are learning at high levels. Analyzing data isn't scary, and also doesn't mean your lessons have to be boring. Let's relentlessly do what is best for students, and the PLC process can lead that way.

A Customized Experience For Your School

Just give us a call, and we will provide your teachers with exactly what they need to better serve your student population. We will plan a professional development that your teachers won't soon forget!
