Education

Academy of Art University

BFA / School of Interaction & UX/UI 2018-2022

Work Experiences

Apple

2022-Present

UX Product Designer

- Built a premium eCommerce experience for thirdparty merchants across 90+ countries, developing front-end experiences and continually enhancing CX and global platform features for merchandising success.
- Collaborated cross-functionally with teams including Marcom, UX, and Product Management, as well as external design and technology agencies to execute my vision.
- eCommerce design experience and strong knowledge of eCommerce merchandising, customer experience, and digital B2C brand sales on direct-to-consumer websites.
- Provided unique perspectives on eCommerce in different markets, including Europe, LATAM, APAC, and MENA, leveraging my global mindset and international experience.

TBWA

2020-2021

Visual/Product Designer

- Designed websites, apps, and other interactive brand elements.
- Created logos and brand elements for various products and businesses.
- Developed signage and wayfinding systems for business and government entities.
- Collaborated with Art and Creative Directors to design and produce promotional displays, packaging, and marketing brochures.

NASA

2021

UX Product Design

- Led UI design team at Sano, ensuring accountability for all design aspects.
- Ideated innovative directions for Astrobee, a freeflying robotics system for the ISS, in collaboration with industrial designers.
- Established protocols and solutions for mental, physical, and social health to be managed by Astrobee.

EJ Trading ehf

2017-2019

Owner, product designer, art director

- Sold imported skincare and hair products from Australia and the USA.
- Created marketing content, including web presence, for various brands such as Blaqmaskisland, Gemil Training, AMA Apartments, VB Umboðið, Mimosa Marketing, Anchors Ísland, and Valur FC.
