

County of Maui launches WailukuLIVE.com

Looking for the latest updates on Wailuku Town's improvement projects? Visit www.WailukuLIVE.com!

The County of Maui recently launched this website as part of a new branding campaign that will showcase Wailuku Town's revitalizing efforts along with its myriad of resources, including its shops, restaurants, historic landmarks, activities and events.

"We're excited about the many things being planned for Wailuku Town," said Sandy Baz, County of Maui's Managing Director. "There are road and infrastructure improvements that will commence shortly, plans for a new parking structure, and efforts underway to realize a Civic Center in the heart of Wailuku – a place where the community can gather. However, it's Wailuku Town's own unique character and sense of place that makes it a true gem for locals and visitors alike. We're thrilled to be able to share and showcase the many facets of this historic town via www.WailukuLIVE.com."

This new mobile-friendly website features:

- A construction updates section with the latest town improvements.
- Information on temporary parking and shuttle transportation that will go into effect early 2020.
- A directory of Wailuku Town historical landmarks, arts programs, restaurants, shops and services.
- An events calendar of upcoming community meetings, Friday Town Parties, Small Town * Big Art activities, Wailuku Performing Arts Alliances and Iao Theater events, and more.
- Links to new apps coming soon will assist Wailuku Town employees with free shuttle transportation during construction of the new parking structure and a self-walking tour of Wailuku's art district by the end of the year.

Follow us and never miss an update!)))

Parking Structure

Dec 2020 - Jan 2022

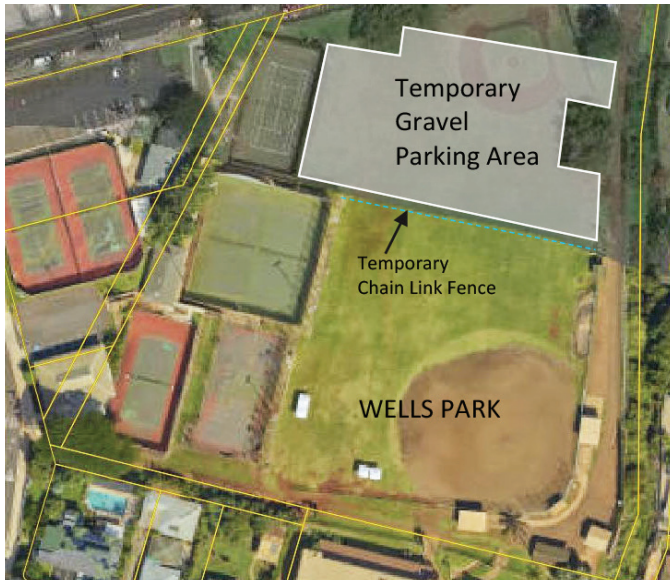

Parking available: Wells Park, other temporary parking locations are to be announced. Check www.WailukuLIVE.com for updates.

In addition to the Wailuku Town improvement projects planned; a separate project to replace deteriorating wastewater pipes on Market Street, between Wells and Main Streets, will also be implemented by the WasteWater Division of the County of Maui. **Anticipated timeline: First Quarter of 2020**

CONSTRUCTION SCHEDULES ARE SUBJECT TO CHANGE.

Wells Park Temporary Parking

During the construction of the new Parking Structure, Wells Park will be used as the primary temporary parking lot. This area can accommodate 100 stalls and still leave room for one of the practice fields to stay in service and remain useable for Iao School. The County is also in discussion with various private property owners interested in making parking available to employees or customers for a fee. War Memorial will be repaved starting in January 2020 so alternative locations for shuttles to originate are being reviewed.

Free Commuter Shuttles

Free shuttle transportation will be offered to/from War Memorial with various stops in Wailuku Town. The County is currently reviewing shuttle routes and scheduling. They are also in discussion with employers to reduce the impact on shuttle transportation such as staggered starting times for workers. The County's goal is to have the temporary parking and shuttle schedules finalized by the end of September 2019. Anticipate shuttles starting early 2020.

Your Voice Matters!

We invite you to join us at any of our upcoming meetings!

AUGUST 22, 2019

Good Shepherd Church, Parrish Hall, 3pm - 7pm

Zoning Amendments Workshop

Draft zoning with stakeholders
