

Senior Frontend Developer

Full time remote position

Are you a quick learner when it comes to new technologies, frameworks, or libraries? Do you want to work with the latest technologies used in the blockchain world? If you answered yes to most of the questions, then we are looking forward to working with you.

You will be joining a fast moving company, highly technical team that has deep knowledge of DeFi and all the cool things from the blockchain ecosystem.

Responsibilities

- Implement full fledged and performant UI for web3 apps with beautiful designs.
- Create trustworthy user experiences by building interfaces that are simple, easy to comprehend, performant and reliable
- Discuss and adapt designs with the design team
- Integrate your own UI/UX improvements to incentivize the users to use the platform.
- Work with the state of the art developer stack.
- Continually learn and apply relevant software development practices, patterns, tools and technologies.

Requirements & skills

- 5+ years of programming experience.
- Excellent knowledge with React Material UI v4 (or preferably v5) framework.
- Excellent knowledge of CSS and precompilation technologies such as Sass or Less.
- Intermediate knowledge of React.
- Self-motivated with a high level of autonomy.
- Excellent communication skills as our entire team is remote.
- Advanced English proficiency.

Bonus points:

- Experience working in DeFi frontend development - understand the flow of the web3 application.
- Understand the interaction between frontend and solidity contracts.

Benefits

- 100% remote & flexible hours
- Growing challenging environment
- Learning possibilities (conferences, meetups, courses, etc.)
- Additional equipment
- Paid time off
- Crypto Payment (USDC)
