About Space Team Aachen

Space Team Aachen is the association for aerospace enthusiastic students from FH and RWTH Aachen. Together we bring space technology to Aachen. For this we have various projects such as annual rocket competitions, research projects and other exciting projects.
For this purpose we cooperate with institutes of the RWTH, FH and the aerospace industry, as well as well-known aerospace companies.

Your responsibilities

You will work in a highly motivated team on various tasks related to the acquisition of sponsors. You will get in contact with a variety of well-known companies and negotiate the sponsoring conditions. In addition, you will:

- Plan and hold presentations,
- develop sponsor packages,
- ensure contact with sponsors and supporters
- help to build a network.

You think you are up to a professional acquisition project and want to prove and develop your skills and knowledge? Then you are exactly right with us

Our requirements

- Student at RWTH or FH Aachen
- Excellent communication skills, openness
- High motivation
- Ability to take responsibility and work independent
- Fluent in English and German

What do we offer

- Involvement in exciting projects in an innovative and disruptive industry
- Become part of a fast growing student association
- Interdisciplinary teamwork in a highly motivated team
- Apply your theoretical knowledge in practice
- Getting in contact with potential employers and building your network
