V-3000CP-Single & Double

High Speed Industrial Patty Former

The **Gaser V-3000CP-Series** are high performance Industrial Patty Machines which offer production speeds of up to 6,000 patties per hour. With a simple and reliable product feed provided by a connected hydraulic or vacuum stuffer, the **Gaser V-3000CP** can meet the demands of industrial patty producers with ease. Interchangeable mould plates are available in round, square, rectangular, or oval with diameters up to 4-1/3" and weights up to 10.6 ounces. Patty paper is automatically placed below each patty and can optionally be placed on top of each patty as well. So when it's time to step up production to a faster, more reliable Patty Machine, The **Gaser V-3000CP-Series** will be your first and best choice in Industrial Patty and Food Formers.
