Yarnway Wealth Management, LLC
7237 Long River Drive
Sacramento, California, 95831

Form ADV Part 2A – Firm Brochure
(415) 889-3902
Dated September 8, 2022

This Brochure provides information about the qualifications and business practices of Yarnway Wealth Management, LLC, “YWM”. If you have any questions about the contents of this Brochure, please contact us at (415) 889-3902. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Yarnway Wealth Management, LLC is registered as an Investment Adviser with the State of California. Registration of an Investment Adviser does not imply any level of skill or training.

Additional information about YWM is available on the SEC’s website at www.adviserinfo.sec.gov, which can be found using the firm’s identification number, 322117.

Item 2: Material Changes
Since this is the first filing of the Form ADV Part 2A for YWM, there is nothing to report. In the future, any material changes made during the year will be reported here.

From time to time, we may amend this Disclosure Brochure to reflect changes in our business practices, changes in regulations, and routine annual updates as required by the securities regulators. Either this complete Disclosure Brochure or a Summary of Material Changes shall be provided to each Client annually and if a material change occurs in the business practices of Yarnway Wealth Management, LLC.

At any time, you may view the current Disclosure Brochure online at the SEC's Investment Adviser Public Disclosure website at http://www.adviserinfo.sec.gov by searching for our firm name or by our CRD number 322117.

You may also request a copy of this Disclosure Brochure at any time, by contacting us at (415) 889-3902.

**Item 4: Advisory Business**

*Description of Advisory Firm*
Yarnway Wealth Management, LLC is registered as an Investment Adviser with the State of California. We were founded in April of 2022. Lonbaye Yarnway is the principal owner of YWM. Because YWM is a new entity, it currently reports no discretionary or non-discretionary Assets Under Management. Assets Under Management were calculated as of April, 2022.

**Types of Advisory Services**

**Investment Management Services**

We are in the business of managing individually tailored investment portfolios. Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client’s prior investment history, as well as family composition and background.

Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors. Fees pertaining to this service are outlined in Item 5 of this brochure.

**Ongoing Financial Planning**

This service involves working one-on-one with a planner over an extended period of time. By paying a fixed monthly fee, Clients get to work with a planner who will work with them to develop and implement their plan. The planner will monitor the plan, recommend any changes and ensure the plan is up to date.

Upon desiring a comprehensive plan, a Client will be taken through establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, employee benefits, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. Clients subscribing to this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. If a follow-up meeting is required, we will meet at the Client's convenience. The plan and the Client's financial situation and goals will be monitored throughout the year and follow-up phone calls and emails will be made to the Client to confirm that any agreed upon action steps have been carried out. On an annual basis, there will be a full review of this plan to ensure its accuracy and ongoing appropriateness. Any needed updates will be implemented at that time.

In general, the financial plan will address any or all of the following areas of concern. The Client and advisor will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

- **Cash Flow and Debt Management**: We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **Employee Benefits Optimization**: We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.

- **Financial Goals**: We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.

- **Insurance**: Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.

- **Investment Analysis**: This may involve developing an asset allocation strategy to meet Clients’ financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.

- **Retirement Planning**: Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

  If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

- **Risk Management**: A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance (“self-insuring”).

- **Tax Planning Strategies**: Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their “tax efficiency,” with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

  We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in
this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

**Client Tailored Services and Client Imposed Restrictions**

We offer the same suite of services to all of our Clients. However, specific Client financial plans and their implementation are dependent upon the Client Investment Policy Statement which outlines each Client’s current situation (income, tax levels, and risk tolerance levels) and is used to construct a Client specific plan to aid in the selection of a portfolio that matches restrictions, needs, and targets.

**Wrap Fee Programs**

We do not participate in wrap fee programs.

**CCR Section 260.235.2 Disclosure**

For Clients who receive our Financial Planning services, we must state when a conflict exists between the interests of our firm and the interests of our Client. The Client is under no obligation to act upon our recommendation. If the Client elects to act on any of the recommendations, the Client is under no obligation to effect the transaction through our firm.

**Item 5: Fees and Compensation**

Please note, unless a Client has received the firm’s Disclosure Brochure at least 48 hours prior to signing the investment advisory contract, the investment advisory contract may be terminated by the Client within five (5) business days of signing the contract without incurring any advisory fees. How we are paid depends on the type of advisory service we are performing. Please review the fee and compensation information below.

**Investment Management Services**

Our investment management fee consists of a fee based on the market value of the assets under management calculated as follows:

<table>
<thead>
<tr>
<th>Account Value</th>
<th>Annual Advisory Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Assets Under Management</td>
<td>0.50%</td>
</tr>
</tbody>
</table>

The investment management fees are pro-rated and paid in arrears on a monthly basis. The fee consists of a tiered fee that is calculated by assessing the percentage rate using the predefined level of assets shown in the above chart. The fees are assessed by applying the fee to the account value as of the last day of the previous quarter. No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

We calculate period-end account values after all dividends settle in the account, therefore, the account value used to calculate advisory fees may differ from that of the custodial account statement. Our billing invoice will indicate the total account value used to calculate the investment management fee.

Investment management fees are directly debited from Client accounts, and/or the Client may choose to pay by electronic funds transfer or check. Accounts initiated or terminated during a calendar quarter will be charged a pro-rated fee based on the amount of time remaining in the billing period. An account may be terminated with
written notice at least 15 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the account.

**Ongoing Financial Planning Fixed Fee**

Ongoing Financial Planning engagements are offered at an annual rate of $4,800 paid monthly in arrears. Clients may choose to pay by electronic funds transfer or check. Accounts initiated or terminated during a calendar quarter will be charged a pro-rated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 15 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the account. No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

**Other Types of Fees and Expenses**

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for Client’s transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

**CCR Section 260.238(j) Disclosure**

Please note, lower fees for comparable services may be available from other sources.

**Item 6: Performance-Based Fees and Side-By-Side Management**

We do not offer performance-based fees and do not engage in side-by-side management.

**Item 7: Types of Clients**

We provide financial planning and portfolio management services to individuals and high net-worth individuals.

We do not have a minimum account size requirement.
Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

When Clients have us complete an Investment Analysis (described in Item 4 of this brochure) as part of their financial plan, our primary method of investment analysis is fundamental analysis.

**Fundamental analysis** involves analyzing individual companies and their industry groups, such as a company’s financial statements, details regarding the company’s product line, the experience, and expertise of the company’s management, and the outlook for the company’s industry. The resulting data is used to measure the true value of the company’s stock compared to the current market value. The risk of fundamental analysis is that the information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock’s value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

**Passive Investment Management**

We primarily practice passive investment management. Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

**Material Risks Involved**

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

**Market Risk:** Market risk involves the possibility that an investment’s current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer’s operations or its financial condition.

**Strategy Risk:** The Adviser’s investment strategies and/or investment techniques may not work as intended.

**Small and Medium Cap Company Risk:** Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client’s portfolio.

**Turnover Risk:** At times, the strategy may have a portfolio turnover rate that is higher than other strategies. A high portfolio turnover would result in correspondingly greater brokerage commission expenses and may result in the distribution of additional capital gains for tax purposes. These factors may negatively affect the account’s performance.
**Limited markets:** Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions, we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

**Concentration Risk:** Certain investment strategies focus on particular asset-classes, industries, sectors or types of investment. From time to time these strategies may be subject to greater risks of adverse developments in such areas of focus than a strategy that is more broadly diversified across a wider variety of investments.

**Interest Rate Risk:** Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

**Legal or Legislative Risk:** Legislative changes or Court rulings may impact the value of investments, or the securities’ claim on the issuer’s assets and finances.

**Inflation:** Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

**Risks Associated with Securities**

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

**Common stocks** may go up and down in price quite dramatically, and in the event of an issuer’s bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

**Corporate Bonds** are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond’s maturity, the greater its interest rate risk.

**Bank Obligations** including bonds and certificates of deposit may be vulnerable to setbacks or panics in the banking industry. Banks and other financial institutions are greatly affected by interest rates and may be adversely affected by downturns in the U.S. and foreign economies or changes in banking regulations.

**Municipal Bonds** are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond’s tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor’s tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

**Exchange Traded Funds** prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF’s shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF’s shares may be halted if the listing exchange’s officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide “circuit breakers” (which are tied to large decreases in stock prices)
halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

**Item 9: Disciplinary Information**

**Criminal or Civil Actions**

YWM and its management have not been involved in any criminal or civil action.

**Administrative Enforcement Proceedings**

YWM and its management have not been involved in administrative enforcement proceedings.

**Self-Regulatory Organization Enforcement Proceedings**

YWM and its management have not been involved in legal or disciplinary events that are material to a Client’s or prospective Client’s evaluation of YWM or the integrity of its management.

**Item 10: Other Financial Industry Activities and Affiliations**

No YWM employee is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No YWM employee is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

YWM does not have any related parties. As a result, we do not have a relationship with any related parties.

YWM only receives compensation directly from Clients and does not receive compensation from any outside source. However, Mr. Yarnway, CEO and CCO of YWM, does participate as Head of Community for Altruist. This relationship is deemed a conflict of interest as YWM does recommend Altruist as a preferred broker-dealer to clients.

**Disclosure of Material Conflicts**

All material conflicts of interest under CCR Section 260.238(k) are disclosed regarding YWM, its representatives or any of its employees, which could be reasonably expected to impair the rendering of unbiased and objective advice.

**Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**
As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

**Code of Ethics Description**

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory Clients. A summary of the Code of Ethics' Principles is outlined below.

- **Integrity** - Associated persons shall offer and provide professional services with integrity.
- **Objectivity** - Associated persons shall be objective in providing professional services to Clients.
- **Competence** - Associated persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- **Fairness** - Associated persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- **Confidentiality** - Associated persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- **Professionalism** - Associated persons' conduct in all matters shall reflect the credit of the profession.
- **Diligence** - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

**Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest**

Neither our firm, its associates or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

**Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest**

Our firm and its “related persons” may buy or sell securities similar to, or different from, those we recommend to Clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest involving the firm or personal trading, our policy may require that we restrict or prohibit associates’ transactions in specific reportable securities transactions. Any exceptions or trading pre-clearance must be approved by the firm principal in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

**Trading Securities At/Around the Same Time as Client’s Securities**

From time to time, our firm or its “related persons” may buy or sell securities for themselves at or around the same time as Clients. We will not trade non-mutual fund securities 5 days prior to the same security for Clients.
Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

Yarnway Wealth Management, LLC does not have any affiliation with Broker-Dealers. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

1. Research and Other Soft-Dollar Benefits

We currently do not receive soft dollar benefits.

2. Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for Clients to use, however, Clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing Clients to choose a specific custodian, we may be unable to achieve the most favorable execution of Client transaction and this may cost Clients money over using a lower-cost custodian.

The Custodian and Brokers We Use (Altruist)

For the benefit of no commissions or transaction fees, fully digital account opening, a large variety of security options and complete integration with software tools, YWM recommends Altruist Financial LLC, an unaffiliated SEC-registered broker dealer and FINRA/SIPC member, as the introducing broker to Apex Clearing Corporation, an unaffiliated SEC-registered broker dealer and FINRA/SIPC member, as the clients' custodian. YWM does not receive any research or other soft-dollar benefit by nature from its relationship with Altruist Financial LLC, nor does YWM receive any referrals in exchange for using Altruist Financial LLC as a broker dealer.

Aggregating (Block) Trading for Multiple Client Accounts

Some Registered Investment Advisers execute Client accounts on an aggregated basis as a way to lower expenses. We do not execute trades on behalf of Clients. As a result, it is up to the Client to negotiate their own trading costs with their broker-dealer.

Item 13: Review of Accounts

Client accounts with the Investment Management Service will be reviewed regularly on a quarterly basis by Lonbaye Yarnway, Owner and CCO. The account is reviewed with regards to the Client’s investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, addition or deletions of Client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.
YWM will provide written reports to Investment Advisory Clients on a quarterly basis. We urge Clients to compare these reports against the account statements they receive from their custodian.

**Item 14: Client Referrals and Other Compensation**

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients. Nor do we, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

**Item 15: Custody**

YWM does not accept custody of Client funds except in the instance of withdrawing Client fees.

For Client accounts in which YWM directly debits their advisory fee:

i. YWM will send a copy of its invoice to the custodian at the same time that it sends the Client a copy.

ii. The custodian will send at least quarterly statements to the Client showing all disbursements for the account, including the amount of the advisory fee.

iii. The Client will provide written authorization to YWM, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least quarterly statements from the broker-dealer, bank or other qualified custodian that holds and maintains Client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

**Item 16: Investment Discretion**

For those Client accounts where we provide Investment Management Services, we maintain discretion over Client accounts with respect to securities to be bought and sold and the amount of securities to be bought and sold. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the Client will execute a Limited Power of Attorney, which will grant our firm discretion over the account. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the Client.

**Item 17: Voting Client Securities**

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client’s investment assets. The Client shall instruct the Client’s
qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client’s investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to Clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of Client funds or securities or require or solicit prepayment of more than $500 in fees per Client six months in advance.
Item 19: Requirements for State-Registered Advisers

Lonbaye Yarnway

Born: 1991

Educational Background

- 2013 – Interdisciplinary Studies, UC Berkeley

Business Experience

- 04/2022 – Present, Yarnway Wealth Management, LLC, Owner and CCO
- 06/2020 – Present, Onyx Advisor Network, Co-Founder
- 10/2019 – Present, Altruist, Marketing, Head of Community
