

WEBSITE CONSENT FORM

We are in the beginning stages of creating a web site for our school. This will create a wonderful opportunity for both parents and school. We will gain another venue from which to gain students, and you will have a place to find constant updates about activities and appropriate forms to fill out for field trips and so on. In order to create this site, we would like to use various photos from the school yearbook and possibly publish our honor roll for each marking period.

We are sending you this parental consent form to both inform you and to request permission for your child's photo/image and personally identifiable information to be published on the web site.

As you are aware, there are potential dangers associated with the posting of personally identifiable information on a web site, since global access to the internet does not allow us to control who may access such information. However, we as a school want to celebrate your child and his/her work. Consequently, the law requires that we ask for your permission to use information about your child.

Pursuant to law, we will not release any personally identifiable information without prior written consent from you as parent or guardian. Personally identifiable information includes student names, photo or image, residential addresses, e-mail address, phone numbers and locations and times of class activities in and out of school. However, at most we would only be using the student's photo/image and name.

Check one of the following choices:

- ☐ I/We GRANT permission for this student's photo/image and name to be published on the school's public internet site.
- ☐ I/We DO NOT GRANT permission for photo/image that includes this student to be published on the school's public internet site.
