Hostel Facility

A hostel in the academic institution is not only the place where the students from far off places stay for their education but also a place of assembly for exchanging their knowledge, wisdom and culture. The main objective of running hostels is to facilitate the students drawn from far off areas to pursue their studies in a homely atmosphere. There are separate hostels available for boys and girls. The rooms are well furnished with Wi-Fi connectivity to help the students to learn more. A spacious dining hall is kept spic and span and the restrooms, bathrooms and toilets are well maintained.

The common room in the hostel is provided with the recreational facilities, a separate TV and a small library with leading newspapers and magazines for the inmates to learn more. Moreover, the hostel in-charge plays an active role in maintaining discipline and the overall

development of the students' personality by organizing various activities, promoting the values of brotherhood and fraternity among the students.

Principal / Chief warden : Dr.A.Somu

Food Court

A spacious, hygienic and well furnished food court is available for students and staff. They have their breakfast, lunch, snacks and soft drinks in the food court on all the working days. Protected drinking water supply is ensured. It functions on all the working days in the campus for the convenience of the students and staff. The food court functions from 9.00 am to 5.00 pm on every working day.

Green campus:

• Renewable energy source

The college has sufficient supply of electricity from EB and has other facilities to meet its requirements. To ensure non-stop power supply the college uses generators, UPS and harvests wind and solar energy to supplement.

RENEWABLE ENERGY SOURCES 2018-2019

Power requirement met by renewable energy sources*	Total power requirement*	Renewable energy source
25673 UNITS	246408 UNITS	Solar Power Unit

^{*} per annum

Rain Water Harvesting

The college is situated on an elevated area and pumping of water from bore wells is a tough task. Hence the institution with the good plan has developed Rain Water Harvesting (RWH) system not only to augment rain water which normally drains waste into open space but also to replenish the existing bore wells within the campus. The rain water collected on the RCC rooftops is channeled to the collection tank through pipe lines. The RWH system is constructed in accordance with the State Government regulations and it helps to refill the bore wells dug in the campus .

Waste Management System

The following waste management systems have been adopted by the institution.

- Solid waste management:
 Solid wastes including food wastes are collected daily and dumped alternatively into the two pits made for the purpose at the eastern corner of the campus and
 - allowed to decompose for later use as manure.
- Liquid waste management :
 - Waste water from hostels is used for gardening.
 - Waste water from the main building is straight away channeled into the soak pit.
- E-waste management :
 - Electrical and Electronic devices are optimally utilized. Damaged computers, printers, electronic gadgets are disposed of as scrap to vendors.

Safety Measures

- Fire extinguishers are installed in the library and in the verandas to ensure safety for all.
- CCTV installed in all vantage points.
- Provision of medical facilities for emergency cases during working hours has been made available. Doctor is available on the prescribed days for consultation on a permanent basis.

Other Facilities

Differently abled (Divyangjan) Friendliness Resources available in the institution:

Special care and attention are given to the differently-abled students for their comfortable stay and study. The institution has constructed ramps and provides wheel chair facilities for the handicapped to move around the campus freely. For differently-abled students classrooms and examination halls are allotted in the ground floor itself. Braille books are available for the visually challenged students. Scribes are provided for them at the time of written examinations. Extension of time is given to them during examinations. Library and the toilet facilities are available in the campus in the ground floor itself for their convenience. Admission Committee provides necessary assistance to visually challenged students. Centre for counseling and guidance also offers care and support for differently-abled students. The student Peer Counselors are student volunteers, who have received orientation from experts, helps the students in their mental and physical health issues. This centre has also conducted many mental health awareness programs on and often.
