# INTRODUCTION

Yummy Cupcakes was launched in august 2022 with the aim to bring joy and high-quality art to the Cardano NFT community with real life utility and more.

The focus of the Yummy Cupcakes team is to stretch the boundaries of the Web3 space, and build a real life BRAND.

Today, we aim to reach an audience much wider and more diverse than in the typical CNFT scene.

We actively promote kindness and inclusion. As part of our initiative we want to make numerous donations to many amazing charities.
