MEET OUR CEO

Mr. Mohammad Bani Hathel

Since the establishment of AIQudra, we have focused on strengthening our position in the market by choosing the best and latest technologies and services and empowering the best talents at all. AIQudra was incorporated under M Glory Holding Group in 2020, one of the most important holding companies in the UAE that focuses on the Fourth Industrial Revolution, in particular being the first electric cars manufacturer in the region, and a number of other industries.

Since the consolidation of relations of cooperation and international partnerships is an important cornerstone of our directions in the region in developing new tools and mechanisms for the future industry at a time when change is occurring at an unprecedented speed, AIQudra has devoted its efforts to developing mechanisms, action plans and application of the Fourth Industrial Revolution and contributing to the adoption of technology and best practices in the Middle East and the world, and adapting the tools provided by the Fourth Industrial Revolution to serve society.

AIQudra is characterized by its rapid adaptation to the needs of the market and the requirements of rapid development, through our exclusive partnerships with major international companies to represent them in the Middle East and the world. We are always looking for companies that serve the economic sector of the region, and we put in our plans to attract the latest technology and industrial production in order to spread these technical sciences, and therefore it was necessary to focus on the latest artificial intelligence technologies in the world, for example, the field of unmanned systems, military and security technological systems rescue, firefighting, and other important and sensitive systems.

Through our extensive experience in the region's market, AIQudra provides a fertile environment for international companies to enter the region with the best possibilities and the easiest way. On the other hand, AIQudra aims to represent the specialized bodies and major companies in the region within our network of partners and relations in various countries of the world, and here AIQudra role comes as a link to stimulate the economy of the local market in the region and linking it with the latest technology in the world and facing the challenges of the future.

These factors have been the main pillar and the prominent feature of AIQudra Company's journey since its inception, which is still moving forward with its goals for the best.

Welcoming you to AIQudra International Companies Representation L.L.C.

ABOUT ALQUDRA

AlQudra International Companies Representation L.L.C. is an Emirati Company established in November 2007 based in Dubai. Al Qudra has become a leading solutions provider for key industries in the UAE and on an international level.

Al Qudra provides the best solutions for international companies and business leaders by representing their companies, products and services, focusing on innovative technologies, efficient solutions and products merged with artificial intelligence to cater to the needs of the Fourth Industrial Revolution. Al Qudra brings these solutions to the market through strategic partnerships with world class and well reputed International Providers and Manufacturers locally and regionally.

HOWE X HOWE

THERMITE FIREFIGHTING ROBOT

OUR PROFESSION

Since AlQudra International is the official representative and distributor of Howe and Howe Technologies in the Middle East and in the region, our primary partnership with them is the cornerstone and main focus of the company.

Howe & Howe is a leader in advanced robotic land vehicles, built and proven for extreme conditions. With a portfolio that includes leading advanced robotic land vehicles, such as the RIPSAN® and the Thermite robotic firefighter, the company is ready and able to support customers wherever they need it most.

Howe & Howe Inc., a subsidiary of Textron Systems Corporation, a Textron Inc. (NYSE: TXT) company, the company announced domestic sale and delivery of its robotic firefighter, the Thermite RS3, to Los Angeles City Fire Department (LAFD).

HOWE X HOWE

THERMITE
FIREFIGHTING ROBOT

**OUR
PROFESSION**

Al Qudra International distribution and sales in the region initially started with UAE Ministry of Interior - UAE Civil Defence HQ.

Recently we have accomplished providing new users of the THERMITE to Abu Dhabi Civil Defence Authority (ADCDA) and Abu Dhabi National Oil Company (ADNOC), and many more esteemed Clients in the near future.

As an exclusive distributor, Al Qudra International provides the world's first and only Purpose-Built robotic firefighters (Thermite RS1 and RS3).

We are committed to provide after-sales services and 24/7 maintenance service. These remotely operated robotic firefighters are the most capable and reliable firefighting robots in the market.

OUR PROFESSION

AlQudra International Companies Representation L.L.C. is the official and exclusive distributor of Howe and Howe Technologies in the Middle East region.

Howe & Howe Technologies is a leading US military technology company in the field of Unmanned Vehicles (UGV), military and security robotics worldwide. The most important of which is the fastest tank in the world RIPS AW (manned and unmanned) which is approved for several American special missions and was shown in some movies.

It is characterized by endurance of geographical factors, difficult climatic conditions, high temperatures and bullets, and this is what qualified it to become within the first line of defense and to be adopted by major international bodies.

HOWE X HOWE

Howe & Howe Technologies has developed the robotic firefighting robot with the same strong military base that will meet the needs of firefighters, as a first responder and raise the level of security in risk areas that may be caused by natural disasters and massive fires.

Howe and Howe Technologies has formed the capabilities of the robot in firefighting operations, which helps reduce the human presence in dangerous areas and protect firefighters from advanced fires, thus reducing fire risks, preventing secondary explosions, and protecting lives and property.

The company started manufacturing and developing the Thermite in strategic cooperation with customers to manufacture robots that meet their needs and add special specifications upon their requirements.

WHY ALQUDRA?

AlQudra International is capable of Representing Private, Semi-Governmental and Governmental companies Locally and Globally in various fields and sectors within the UAE and worldwide through strategic partnerships and Distinguished Commercial Agreements.

AlQudra International is Focusing on the sectors of Development, Technology, Artificial Intelligence and the fourth industrial revolution in general, by fully representing them in sales, marketing, promotion, management, planning strategy and development.
