MENTOR APPLICATION PACK_

ABOUT THE MENTORING PROGRAMME_

The Diana Award Mentoring Programme supports young people to develop their careers skills, whilst making positive change in their community. We collaborate with professional volunteer mentors to deliver mentoring interventions and careers skills development programmes for young people aged 14-18 who are at risk of becoming NEET (Not in Education, Employment or Training).

We support young people in collaboration with volunteer mentors, sharing professional advice and guidance and providing careers skills training. The programme also encourages young people to participate in youth-led social action, with mentors and mentees working together to develop projects tackling issues that directly impact them and their community.

We are currently recruiting volunteer mentors in **London, Leeds and West Yorkshire** to participate in our **Autumn 2024 Mentoring Programme**.

ABOUT THE SOCIAL ACTION ACCELERATOR PILOT_

The Diana Award offers an interactive Social Action Accelerator Pilot aimed at young people who have completed the twelve-week Mentoring Programme and resultantly have youth-led social action projects they would like to develop.

The Diana Award connects volunteer mentors with small group of young people, supported by The Diana Award staff. Two groups of young people with exciting social action projects from each region (London, Leeds and West Yorkshire) are selected for the programme. **Staff and volunteer mentors provide these young people with ongoing advice and guidance to support the implementation of their youth-led social action project.**

The Social Action Accelerator Pilot culminates in young people sharing their youth-led social action projects at Social Action Support Forums as well as through The Diana Award's online platforms, and local and national forums.
