

Alternative investments,  
always a step ahead.

## About Splint Invest

Splint Invest is a platform for individual investors to invest safely and transparently in alternative assets. With the Splint Invest app, individual investors can create an account within less than 2 minutes and invest directly in various attractive assets.

By tokenizing ownership rights, Splint Invest enables individual investors to invest even with small amounts, such as 50 EUR.

## 3 reasons to invest

You like it, you own it. As a shareholder of the MARK Investment Holding AG, you are officially a co-owner of the Splint Invest platform. You get first-hand information about the company and all news.

Unicorn potential: the projected value of the company in 2026 is 1.016 billion CHF. You now have the chance to become a co-owner of a potential Swiss unicorn.

Swiss-made: You support the Swiss start-up ecosystem and the ambitious founding team with your investment. Together, we enable all individual investors to protect and increase their wealth.
