

FOR BUSINESS

YOUR PARTNER FOR TRAINING AND DEVELOPMENT

Scalable Training Solutions for
Innovative Organisations

WE ADD VALUE TO YOUR ORGANISATION

We will build a long-term partnership to support you in developing your internal human capital resources. We specialise in launching blended training solutions that combine in-person tuition with digital training in ways that enable you to:

Provide support and career pathways for employees through regular and constantly renewed instructor-led training journeys, alongside self-paced development activities.

Integrate training so it becomes routine for all employees, regardless of their career stage, developing them with appropriately selected training.

Ensure that everyone in the company receives consistent, high-quality training, regardless of their geographic location.

Extend the value and benefit of fixed training budgets to enable you to develop more people or deliver more training to your team.

SUCCESS STORIES

KLD always strive to achieve success based on the social mission for which the company was founded, and in light of which it is able to support thousands of trainees around the region.

We have established academies for several companies in the Kingdom of Saudi Arabia and the United Arab Emirates, branded with their own identity.

In cooperation with HR departments, we design continuous training plans linked to company values using our self-paced content integrated into blended learning journeys.

We have developed 4,000 trainees in the maritime transport sector for the same cost of training 400 using traditional training methods.

We have developed special content that addresses the security and safety requirements of a number of companies operating in the energy and transportation sector.

We have created content that reflects the policies of a number of regional companies in a way that enables them to deliver the necessary messages consistently.

We support academies that we establish with our **COURSINITY** content from launch date, enabling us to provide a wide range of training journeys.

“ *Our large-scale training solutions enable our clients to qualify their human capital in an efficient and effective manner.* ”

ABOUT KLD

Our training solutions are not limited to solely self-paced digital training, nor are they zoom-based instructional lectures. Instead, we invest significantly in developing blended and highly engaging learning. Our typical learning journey consists of short video-based learning, self-paced content, interactive quizzes, case studies and the all-important instructor-led sessions that ensure understanding and progression towards successful completion.

We enable you to train on a large-scale in a consistent, interactive and high-quality manner, making training a comprehensive activity for all functional levels of the organisation wherever they are located.

WE ENABLE YOU TO TRAIN AND DEVELOP YOUR TEAM MEMBERS:

In collaboration with top experts and the best professional institutes.

Achieving high spending efficiency.

Delivering high quality training at scale.

Through engaging and interactive training journeys.

Addressing the actual needs and activities of your organisation.

“ We specialize in developing engaging learning journeys enabling all kinds of organisations to make effective and continuous training a part of their culture, with high spending efficiency, and a return worth the investment.
