Introduction

Hidden Gem

A hidden gem for surfers in search of perfect waves without the usual crowds. Amazing waves practically all year long and a mesmerizing sunset with breathtaking views of the Pacific Ocean. This area receives an impressive average of 330 days of favorable onshore winds annually. Here, you will find peace, tranquility, and above all, minimal crowds.

Punta Miramar

Located right in front of Miramar Surf Camp, Punta Miramar or "La Punta" is the perfect point break that offers a breathtaking view 24/7 during your stay with us. Whether you're sipping on your morning coffee or enjoying a cold Tona beer, you can watch the surf and decide on the best time to hit the waves. Punta Miramar is undeniably the most consistent wave in the region, and arguably the most reliable in Nicaragua.

The outer reef is the most challenge wave in the region when the swell gets big this wave will never close out and will increase only in size and power .During mid-swell days the wave is fun and perfect to be ridden with a long board, but once the swell gets over 6ft, the wave will change completely from water to wine increasing the surf level and satisfaction for the big riders.

Puerto Sandino

Get aboard of our boat and go surf the best wave of nicaragua! Puerto sandino or freight trains as know is world class wave locate only 10 min away from Miramar Surf Camp. This wave will depend only on the sandbar in case we have a poorly rainy season then the wave can not work at all , but with proper rain , wind the river will throw so much sediment filling sand bar in the middle of the ocean making super shallow sand bar expose to the south swell. Super consistent a true wave machine. Freight trains is known for your super long rides and endless barrels, best at incoming tide.

Salinas Grandes

Located only 20 min aboard of our boat, Salinas is truly mirage, it is located 3 miles north of Puerto Sandino, this beach has couple miles of empty coast line and is a real wave magnet .Salinas is a place where it will peak most swells , small days and big days with the right conditions. Salinas is not a beginner wave, we recommend there for intermediate and experience surfer . If you are looking to improve your barrel ride this definitely is the place to go.

The Pier

The construction of The Pier has resulted in an intriguing phenomenon. Instead of disrupting the natural flow of the ocean, it has harnessed its power and transformed it into a thrilling surfing experience. Surfers now have the opportunity to ride a unique right-hand wave that offers a tubular and fast ride. As swells increase in size, the wave becomes even more impressive. It requires a higher level of skill and expertise to ride.

Shacks is a sick slab wave locate only 5 min of miramar surf camp. The wave is left most of the time and occasional right can be ridden as well. With any swell above 3ft on incoming tide close to high tide, this wave turns on , and will be one of the funnest waves you will surf staying with us. With optimal conditions the swell wedges on the flat table rock and make hollow take o providing dry barrels with good walls which can be ridden all the way to the beach.

Shifty

Shifty s is located only 100 walking from shacks, 5 minutes from our hotel. Is the most friendly wave in the region. There you don't have much chance to be caught inside by big sets. This wave has an outer reef which breaks the swell and produce a more friendly line up. The best time to surf this wave is during high-incoming ride and the wave break for both sides, rights and lefts.

Shifty is the best beginner / intermediate wave or for those who like to bust big air or hot dog surf this wave is super fun and ripple.

La Flor

La Flores always offer waves good to learn to surf. It is from 2 km from Miramar SurfCamp, 15 minutes walking. We like to go by the beach and seeing all the others spots but also we have an option to call for a 'tuc tuc' to get a ride. Uncrowded and beautiful, this can be a nice option for a beach day with the family and kids as well! Sometimes, in the monsters days, even good for experienced surfers as well. It can make a nice a smoothie wall to rip or just ride and enjoy it. It is from 2 km from the hotel, 10 minutes walking. We like to go by the beach and seeing all the others spots but also we have a option to call for a 'tuc tuc' to get a ride. Uncrowded and beautiful, this can be a nice option for a beach day with the kids!

El transito the next town south of miramar. The best way to get there is by boat ride is 10 miles riding this beautiful coast the boat ride takes around 40 min. By car to el transito is easy as well or you can try the nicaraguan experience and enjoy the tuc tuc ride . El transito is beach break and a swell magnet the beach is pretty small in extension and the swell when picks on size the waves get out of control but on mid-small days is super fun option . The town of el transito has grown a lot over the past few year and became a really cool tourist destination. Their you can mix the surfing with a day trip to enjoy the beach, tide pools, bar & restaurants.

The best time to surf is with mid-tide close to high.

About us
