# INVITHINGS EXPLOITATION SOFTWARE
Ref INV-EXP

The InviThings Exploitation software allows you to install sensors compatible with the InviThings network, and to monitor them. The list of alarms as well as the status of the sensors are displayed in real time.

Strengths

- Installation of several sensors at the same time
- Display of alarms with details (sensor, zone, intrusion, tamper)
- Remote configuration of 1 or more sensors
- Dashboard representing the general state of the system

Specifications	
Compatibility	Chrome, Firefox, Edge, Opera
Security	Connection to a secure session by login/password
Setup	Installed by default on InviThings servers
Compatible sensors	INV-DIFENCE, INV-SLXXX, INV-OPT-RDL, INV-BX-RAM-LS, INV-WNX40-L, INV-QXI-RDT-L, INV-WXS-RAM-L, INV-OUV-L, ADE-DRYC-L
