# **WORKSHOP GUIDE**

## **Essentials for a Successful Job Search**

 We will unpack how to leverage job search tools such as LinkedIn, the Occupational Outlook Handbook, and more to discover career pathways. We will help you strategies how to develop and leverage connections within organizations. The knowledge and tools shared will allow participants to be equipped to manage the job search process throughout their entire careers!

## **Accelerate your Career by Enhancing your Personal Brand**

 We will teach participants about professional identity. Participants will learn about the NACE competencies and how to engage their everyday professional life with a brand specific to each participant's individual career identity that fits the expectations of their respective organization and career pathway.

## **5 Keys to the Career Development Cycle**

 This session will help participants explore their own career pathway according to concepts that focus on intrinsic characteristics. During this session participants will see how their strengths, skills, interests, values, and personality impact their lifelong career decision making.

## **4 H's to Being an Effective Leader in your Organization**

 Let's explore principles of servant leadership and how this concept can be implemented into any organizational setting. Learn how authenticity and humility challenge individuals to develop and implement the servant leadership model through 4 domains: Heart, Head, Hands, & Habits

## **Writing a Winning Resume**

 Having a winning resume is critical for the job search process. This course will help you gain the confidence and skills needed to write your resume based on your career goals.

# WORKSHOP GUIDE

## **The Winning Interview Strategy**

The interview process can seem like a challenging undertaking. Interviews themselves can take on many forms, and with organizations being diverse, there could be plenty of things that an interviewer needs to consider and prepare for prior to the big day. This workshop will help you develop a winning strategy for your interview.

## **Level Up: Career Readiness Competencies**

Are you a student or someone looking to enter the workforce? Well, this workshop will teach you about the competencies needed to be successful in any industry. Learn how concepts such as critical thinking, digital technology, and intercultural fluency impact the nature of the work you do.

## **Navigating Your Career With Values, Interests, & Skills**

For students or those who are new to the workforce, this workshop will be helpful to explore careers using fundamental assessment tools. Self-reflection is critical for career decision making. Values, Skills, and Interest assessment give great opportunity for self-reflection and discovery for career opportunity.

## **Entrepreneurship for Professionals**

Starting a business can provide many benefits for professionals.

Entrepreneurship can help you find ways to increase your earnings, diversify your skill set, or looking to become a full-time business owner.
