I build meaningful digital products.

Over 17 years of my career, I switched many hats in many companies, always striving to do whatever was most effective for the product to succeed.

Now I utilize this aggregated experience in form of product design that overlaps with product management and development if needed.

EXPERIENCE

Kernel 2022

Helping to shape a Figma plugin that brings real content into design.

OOUX USABILITY TESTING CONCEPT DESIGN COMPETITIVE ANALYSIS

Denizen 2020 - 2022
