

BETTER COMMERCE FOR THE
RESTAURANT SUPPLY CHAIN

Tab Connect - Supplier Info Pack

What is Tab Connect?

Tab Connect is a software product for restaurants that automatically receives, standardizes, and uploads all incoming supplier invoices into their central online dashboard. Restaurants can manage and pay invoices, as well as access real-time analytics. Tab Connect automates up to 85% of the manual back office work for restaurants - saving them a significant amount of time and resources.

How does Tab Connect impact you as a supplier?

As a supplier to a restaurant using Tab Connect, nothing needs to change on your end, in fact you'll see some significant benefits such as faster invoice payments, lower payment processing fees, and a happier customer. We just need a few things on your end outlined below.

What is needed from you?

- **Take 3 minutes to create a Tab Connect account.** All we need is some general info on your business, your preferred payment methods and terms, and your void cheque information so we can facilitate invoice payments from restaurants using Tab Connect. [Here.](#)
- **If a restaurant customer joins Tab Connect, please add invoices@tabcommerce.ca as a recipient to the digital invoices you send them.** We automatically receive this invoice and standardize the data into the restaurant's online dashboard. If you send paper invoices, we'll capture those too when the restaurant sends us a photo of it.
- **That's it - you're done!** You can continue to send invoices to restaurant customers as normal, and if one joins Tab Connect, nothing will change except you'll be receiving their invoice payment much faster.

Additional Details

- For invoice payments paid by card, we apply a card processing rate of **2.85%** deducted off the invoice payment. If you'd like to lower this rate, please contact us. Note, if you auto-charge this restaurant's card on file, that remains the same and no payment flows from us.
- For invoice payments paid by EFT or e-Transfer, we apply a \$1.50 charge deducted off the invoice payment.
- If you'd like to get set up for gross settlement (we provide full invoice payout and invoice you the total payment processing fees monthly), please contact us.
- To contact us on the above or with any questions, please email suppliers@tabcommerce.ca or call (844) 701-1772.

To learn more about how you can benefit from Tab Connect with your other restaurant customers, see the next page.

BETTER COMMERCE FOR THE RESTAURANT SUPPLY CHAIN

About Tab Commerce

Tab Commerce is a technology company providing software to enhance how business is done between restaurants and suppliers.

As a supplier with a Tab Connect account, you can unlock the outlined benefits with your existing restaurant customers by letting them know you're on Tab Connect. By providing Tab Connect as an option to your customers, you enhance your customer experience, get paid faster, save on processing fees, and stand out to prospective customers. We're ready to help you get started with this, get in touch or visit our site to learn more.

We also have invoicing and payments products specifically designed for suppliers - all of which have built-in connections to the Tab Connect Ecosystem.

Tab Commerce Product Suite for Suppliers

- Tab Platform.** Create, send, and manage all invoices and payments with your restaurant and other wholesale customers. Accept cards, EFTs, e-Transfers all in a single place.
- Tab PayLinks.** All the payment benefits of Tab Platform wrapped into a single URL link. Get paid right within the ongoing customer email or text conversation or add right into your current invoicing system.
- Tab Vault & Virtual Terminal.** Save and charge customer credit cards on file in 2-clicks.
