NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Unaudited - Expressed in Canadian dollars) FOR THE NINE MONTHS ENDED OCTOBER 31, 2020

#### 1. NATURE OF OPERATIONS AND GOING CONCERN

Pan Global Resources Inc. (hereafter referred to as the "Company") was incorporated under the laws of the Province of British Columbia and was established as a legal entity on February 1, 2006. On December 21, 2009, the Company changed its name from Mosam Capital Corp. to Pan Global Resources Inc.

The Company's principal business activities are the acquisition of rights to explore for minerals and the exploration of acquired rights. The Company is primarily focused on the early stage exploration through to development of resources of copper and other metals in Spain. In addition to exercising its first option to acquire a 70% interest in Minera Aguila S.L.U. ("MASL") (Note 4), the Company has also signed a Letter of Intent ("LOI") with EVALAM2003 S.L. ("EVALAM") to acquire the Escacena Investigation Permit (Note 4). The Company is continuing to review a number of other opportunities.

The Company's common shares are listed on the TSX Venture Exchange ("TSX-V") under the trading symbol "PGZ". The Company's principal office is located at 700 - 1199 West Hastings Street, Vancouver, British Columbia, V6E 3T5.

As at October 31, 2020, the Company had a working capital of \$4,399,410, recorded a net loss of \$2,259,680 for the six months then ended, and had accumulated a total deficit of \$21,038,857. These condensed interim consolidated financial statements are prepared on a going concern basis, which presumes the realization of assets and discharge of liabilities in the normal course of business for the foreseeable future. The ability of the Company to continue as a going concern depends upon its ability to raise adequate financing and develop profitable operations. These condensed interim consolidated financial statements do not include any adjustments to amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue operations. As at October 31, 2020, the Company has not achieved profitable operations and has accumulated losses since inception. The Company will need to raise additional funds to further its exploration and development programs.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or ability to raise funds. Therefore, there is uncertainty that may cast doubt on the Company's ability to continue as a going concern.

#### Fair Value

Financial instruments recorded at fair value on the consolidated statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- a) Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- b) Level 2 Inputs other than quoted prices that are observable for assets or liabilities, either directly or indirectly; and
- c) Level 3 Inputs for assets and liabilities that are not based on observable market data.

The fair value hierarchy requires the use of observable market inputs whenever such inputs exist. A financial instrument is classified to the lowest level of the hierarchy for which a significant input has been considered in measuring fair value. The carrying value of cash and accounts payable and accrued liabilities approximated their fair value because of the short-term nature of these instruments.
