

Chemical Warfare

Hey America, and US Congress:

I was helping a friend install some insulation the other day and he had the radio tuned to K-hart, if you're in the Anchorage area you'll find it at 59 on the AM dial, very easy listening music. I heard a number of

songs that day that I haven't heard for quite some time, one of which was Stevie Wonder's, **ISN'T SHE LOVELY**. I believe I remember the very first time I ever heard that song. It was 1978 and I was on a jet liner leaving New York bound for a tour of Israel, it was at that time played over the intercom system. I always liked both the tune and feel of the song, it just made you feel good listening to it, and to be completely honest it was quite some time before it came to me that he was singing about a small child, not being able to hear the lyrics perfectly I thought he was singing about his admiration of a woman. But no! He was singing about a newly born girl child, his daughter. I must admit the song brings a smile to my lips, and laughter to my heart. Way to go Stevie Wonder! Some of the lyrics to Stevie Wonder's song are:

Isn't she lovely---Isn't she wonderful—Isn't she precious—
less than one minute old. I never thought though love we'd
be making a love as lovely as she, but isn't she lovely made from love. Isn't she pretty—
truly the angel's best—boy I'm so happy—we have been heaven blessed. I can't believe
what God has done, through us He given life to one, but isn't she lovely made from love.

**I agree Stevie, there is nothing like the wonder and beauty of a child, particularly a small one.
Nothing in all the world!**

Well sadly, I have to admit it wasn't just easy listening music I heard on the radio that day, but don't you know it, they interrupted what were some very fine songs with national news, and on the news, I heard something that was to me both very sad, and very disturbing.

Let me see, how did the news casters phrase it? It went something very close to this, "it is being told that the government of Syria has begun the use of chemical weapons against its own people, and President Obama has made the comment, **"I view this as a red line item"**". The which I took to mean that it was, so to speak, an action on the part of the national government of Syria that was crossing the

line of what is acceptable or tolerable in his mind. A red line item, eh? A line drawn in the sand? Apparently, that means, “**Cross this line and watch out**”.

America please, can you answer something for me? Can you tell me how it is that a nation of people that has now “legally” murdered over 60,000,000, (*that is 60 million for those of us who may be mathematically impaired*) of its own most innocent and defenseless citizens, (*abortion, the which has been “legalized since the Supreme Court’s Roe verses Wade decision*) **a very great many of which were themselves killed by means of chemical warfare**, as any right before the Almighty, or any other individual, or any other nation on the face of the earth to point a finger in judgment against the Syrian national government? Not that I am saying that the national Syrian government does right concerning its civil war. But I am not a Syrian son, I am an American son, and because of this reality I will forgo commenting on Syria’s problems, **for should not a man, or even a nation clean up its own yard before it begins to sit in judgment concerning the mess in another’s yard? Aren’t we guilty enough before YeHoVah’ with the load of our own depravity that we should be humbled enough to keep our mouth shut in respect to another’s sin, at least until we turn from our own?**

hypocrite (noun)

1. Someone who practices hypocrisy, who pretends to hold beliefs, or whose actions are not consistent with their claimed beliefs.

America, we play the hypocrite! We send our secretary of state and others all around the world as “**champions**” of human rights when the blood of the innocent is on our own hands, in fact, it is all the way up to our arm pits. We have zero right to seat in judgment upon Syria, for whatever guilt they have is extremely less than our own, for have the Syrians killed 60 million of their own citizens as we have here in America? Answer me, have they?

I tell you America, and you need to listen very attentively to me. Our sins are on record before the Almighty One. We are the guiltiest nation on the face of the earth. For what other nation has experienced the depth of the Gospel and calling of YeHoVah’ as you have? What other nation’s founders were dedicated Christians as what ours were? What other nation has stamped on its money, “**In God We Trust**”. What other nation has enshrined in one of its sacred documents the words, “**We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness**”, and for all the good YeHoVah’ has done for this people, yet we have spurned Him, yet we spit in His face by standing in opposition to His laws. Yet we have forsaken our covenant with Him as a rebellious and whorish woman forsakes her marriage covenant and sleeps with others. I tell you America, you need to turn from your sins, that there might be a lessening of the hand of judgment from YeHoVah’ upon you. For there will be no escaping His judgment, **we have “played the fiddle, and now we must dance the dance”**. And what dance will we dance? It will be the dance of suffering under the judgment of Almighty God for the acts of rebellion that we have committed in his face.

Congress: Since you are referred to as “law makers”, I call on you to pass a federal law that outlaws abortion in any and every stage of life, making it once again “**the law of the land**”, or in other words bring the de-legalization of murder back into America.

And, in so doing making any, and every person from that point onward who participates in abortion (*The murdering of a child*) liable to be tried for the murder that abortion in actuality is! I call on you to do this. I implore you to do this! I charge you to do this! NO, I demand you to do this in the name of Yeshua, whom the Almighty has pronounced

PRINCE OF THE KINGS OF THIS EARTH. In His name, I demand of you to return the rule of law to America, that we might have at least the hope of the mercy of God in reference to the lessening of the judgment that is sure to come upon us, and that we might again bring back a portion of the honor that is due a godly and decent people.

For the reason of this issue’s importance put your constant dickering over budget issues to the side, (*Yes we need to balance the budget, even an honest 10 year old child should have enough sense to realize one must not spend money one do not have*) for believe me, if we do not repent from this murder of our unborn and cry out to the Almighty for mercy He will visit us, even as He visited the plagues on ancient Egypt. If we fail to turn from our sins, surely, He will visit judgment upon us bringing destruction into our land, **and then we will have no budget for you to bicker over.** **And what if in His anger He returns upon us a just recompense for the murder of the children which we have “legally” committed? What if He demands life for life to even the score? What if YeHoVah’ demands 60 millions of our lives in**

judgment because of our murderous ways? What if YeHoVah' brings death into every family in this land who in the rebellion and unbelief of their hearts have refused to honor Him as King and God and obey His laws? And if you do not think He is big enough to do it, then just stay in your sin and see what happens. You will see. He is not the idiot that many make Him out to be. He will not be mocked. He is to be obeyed!

America, Congress: You need to stand up as men and put President Obama in His place. **Get a backbone!** Mr. Obama reigns among us as a champion for murder and indecency. **America:** You need to stand up and put the murderous democrats in their place, for allowing them to promote their perversions is bringing the very judgment of God upon all of us. As a national father, Mr. Obama is a failure, therefore He offers this nation no hope of a future, but only to lead us into further, and more certain, and more severe judgment from God Almighty. You need to call an ace, an ace. Call the black sheep black and get that man out of office. He, and his programs are certainly working to accelerate your downfall. Let us once again make it an American ideal to stand for what is pleasing to God! To once again return to our laws and institution the honor of a clear conscience both before God, and before the other nations of the world.

Marriage is honorable in all, and the bed undefiled: but fornicators and adulterers God will judge.

—Hebrews 13:4

life, eye for eye, tooth for tooth, hand for hand, foot for foot.

—Deuteronomy 19:21

I will say another thing. Get it straight America. Various of your civil, educational, and religious leaders for decades now have been lying to you concerning sex, saying its ok out of marriage, go ahead a play if you want. But I say, **sex is not a toy.** I will say it again, **sex is not a toy.** I will say it the third time, **sex is not a toy.** The marriage bed (*Which sex is*) is a gift of Yeshua the creator. It is given for the pleasure of married people. It is given for the empowerment of married people. It is given to married couples so that in the confines of a special private relationship they can procreate life, IE, children. All of which are to stand together as a picture of the relationship of Yeshua to His own. All of which are very precious to God, and woe to any man or government that disrupts the testimony that they were designed and given by Yeshua to bring forth. Sex was never designed or created for immoral and rebellious people to use for their practice of fornication, nor was it created and given by Yeshua for the playground of the married individuals who in their unbelief and rebellion seek numerous ways to

circumvent one of the very purposes of the marriage bed, IE, children. For this is not in keeping with either the testimony that marriage is to bring forth, nor is it in keeping with YeHoVah's commandment.

Here America is a list of at least some of the chemical weapons that your nation's

abortionists (“**legalized**” **hit men**) use in their abortion clinics (**death clinics**) all across the breath of this land, and a brief description of how they work, and what they do to cause the agonizing and meaningless death of your most innocent and defenseless citizens:

- *Chemical, First Trimester: RU 486* **Commonly known as the pill that kills**

On Thursday, September 28, 2000, the Food and Drug Administration approved RU-486, [also known as mifepristone] a dangerous chemical abortion drug that causes women to have abortions early in pregnancy. To ensure the abortion pill is "used accurately and safely", the FDA mandated that women be given special brochures called "MedGuides" explaining who is eligible for a drug-induced abortion and what dangerous side effects to expect, and that they must make three trips to the abortion facility to undergo the abortion. The RU 486 chemical abortion procedure requires the administration of two potent and dangerous drugs, since RU-486 alone may not cause a complete

abortion. A second drug, a prostaglandin, is used to ensure that the abortion is more likely to be successful. In cases where both chemicals fail to give a complete abortion, a surgical procedure may be needed.

RU 486, a steroid, starves the small developing unborn child to death by making the uterus a hostile environment where the nutrient lining of the womb sloughs off. The secondary drug, artificial prostaglandins, either Cytotec or Misoprostol, causes muscular contractions to expel the dead baby. Prolonged excessive bleeding, severe cramps, and diarrhea are some of the common side effects of the RU 486 procedure.

- *Chemical, First Trimester: Methotrexate*

The procedure with methotrexate is similar to the one using RU 486, though administered by an intramuscular injection instead of a pill. Originally designed to attack fast growing cells such as cancers by neutralizing the B vitamin folic acid necessary for cell division, methotrexate apparently attacks the fast growing cells of the trophoblast as well, the tissue surrounding the embryo that eventually gives rise to the placenta. The trophoblast not only functions as the "life support system" for the developing child, drawing oxygen and nutrients from the mother's blood supply and disposing

of carbon dioxide and waste products, 1 but also produces the HCG (human chorionic gonadotropin) hormone which signals the corpus luteum to continue the production of progesterone necessary to prevent breakdown of the uterine lining and loss of the pregnancy. Methotrexate initiates the disintegration of the nutrients and oxygen of the forming placenta and makes the uterus a hostile environment to the growing baby. The baby dies. Methotrexate is a highly toxic drug and must be closely monitored. During

normal use, blood tests must be routinely done to prevent possible death or injury to the user. Three to seven days after the methotrexate is given (depending on the protocol used), a suppository of misoprostol (the same prostaglandin used with RU 486) is inserted into the woman's vagina to trigger expulsion of the tiny body of the child from the woman's uterus.

- *Chemical, Second and Third Trimesters: Instillation Method Salt Poisoning*

These methods involve the injection of drugs or chemicals through the abdomen or cervix into the amniotic sac to cause the death of the child and his or her expulsion from the uterus. Several drugs have been tried, but most commonly used is a saline solution. This technique is used after weeks of pregnancy, when enough fluid has accumulated in the amniotic sac surrounding the baby. A needle is inserted through the mother's abdomen and 50-250 ml (as much as a cup) of amniotic fluid is withdrawn and replaced with a solution of concentrated salt. The baby breathes in, swallowing the salt, and is poisoned. The chemical solution also causes painful burning and deterioration of the baby's skin.

- *Prostaglandins*

Prostaglandins are naturally produced chemical compounds which normally assist in the birthing process. The injections of concentrations of artificial prostaglandins prematurely into the amniotic sac induces violent labor and the birth of a child usually too young to survive. Often salt or another toxin is first injected to ensure that the baby will be delivered dead, since some babies have survived the trauma of a prostaglandin birth and been born alive. This method is used during the second trimester. In addition to risks of

retained placenta, cervical trauma, infection, hemorrhage, hyperthermia, bronchoconstriction, tachycardia, more serious side effects and complications from the use of artificial prostaglandins, including cardiac arrest and rupture of the uterus, can be unpredictable and very severe. Death is not unheard of.

America, Dear America: Let us search and try our ways and turn again to YeHoVah'. Let us lift up our hands and our hearts unto Him, for it is only of His mercies that we are not consumed, because His mercies will never fail to a repentant people. For His mercies are new like the dew every moment, every minute. Great is His faithfulness. However, in the end, His mercies can only be realized by a repentant people. A people who acknowledge their waywardness and turn from it to do the truth. Amen

An American Watchman
