

An article written as a letter questioning whether God or Chance is responsible for the magnitude of natural disasters that have plagued America in recent decades, suggesting that repentance before God is the bottom-line answer to bring this nation relief from these plagues.

Natural Disasters-Who Sits King Over Them, God Or Chance?

Hey America:

I would speak to you in the name of the one whom YeHoVah' (*the eternal name of God*) has appointed Lord over all nations. To be Lord means to be supreme in authority. Yes, that means Yeshua (*Yeshua is the Hebrew personality that many refer to as Jesus*) is supreme over all your people and their leaders, your president, civil leaders, educators, religious leaders, yes, even your Supreme Court. Life and light are to be granted to all who seek Him, but His enemies will be ground to powder (Mat. 21:44).

I have always been a bit impressed by the weather people who can fairly accurately forecast the weather days in advance. Whether it will be warm or cold, rain or snow, or windy, etc. My compliments to them. However, I would like to pose a question to you, America. If we can forecast the weather, why can't we forecast YeHoVah's judgment upon our land? Think back over recent decades....the San Francisco earthquake, California drought, California flood, Hurricane Andrew, Iniki, and Roxanne, as well as others. Huge flooding in our Midwestern states and

drought along the east coast; fires in California, the Los Angeles earthquake and more recently the western fires. In 1995, a record year for tornadoes, plus the western floods in the fall. The year of 1996 brought various floods in Arizona, California, Oregon and Washington. With the great Red River Valley flood in 97-98 and the winter of El Nino and its torrents of rain on the west coast. And there have been numerous regional natural catastrophes, far too many to list. The year 1999 brought five major hurricanes, many tornadoes and numerous fires. The year 2000 saw more than 5.5 million acres burned in the US.

America: This is what will happen to all the freedoms that you enjoy if you go on refusing to honor the God of heaven. The freedoms that your country's fathers paid such a dear price to obtain, and to maintain until this time

2001 saw the Midwestern heat wave and tropical storm Allison in Houston Texas. 2002 saw the New Jersey drought. 2003 saw Killer storms in Kansas, Missouri and Tennessee as well as hurricane Isabel striking the Atlantic coast. 2004 saw four hurricanes strike Florida. 2005 saw hurricanes Katrina, Wilma, and Rita. 2006 saw killing blizzards in Colorado, and the California heat wave blamed for over 200 deaths. 2007 saw the California fires. 2008 saw the most recent horrendous US natural disaster, the Iowa floods.

Fires, floods, tornadoes, hurricanes, droughts, etc. all add up to a tremendous loss of property, income, and lives. I suppose some

think that this is just happenstance. I ask you, where are our leaders, both civil and religious who might have insight concerning the reason these things are happening? I have heard some who possess insight, but I believe that most are unenlightened and cowardly. **You might say, oh, that's just Mother Nature acting up. Well, my friend, I suggest to you that YeHoVah' has Mother Nature under His control, and "she" doesn't do anything He doesn't let "her" do.** Even those among us that confess that YeHoVah' is the creator have lost touch with the realization that He holds all things (*which includes the forces of nature*) in His control (Col. 1:16-17).

Why is it that our president, the U. S. Senate, and Congress in their supposed love and boundless wisdom toward us do not tell us that relief can only be gotten through repentance before God? I tell you, it will never come by way of humanistic propaganda, programs, or endless scientific study. We are a sinful people, and we must repent or YeHoVah' will plague us until we are destitute. Note the verses listed at the end of this letter, they will begin to reveal to those whose hearts are open the reason why these convulsions in nature have befallen us, and why YeHoVah' does not move in our favor to hold them back. Read them! They are there in black and white.

You see friends, YeHoVah' never willingly afflicts mankind. The purpose of His affliction is to get our attention and humble us. Though He brings grief, He will also show compassion if we repent. I will offer to you counsel both man and woman. **Bend your knees before YeHoVah' confessing and turning from your sins.** As you walk with YeHoVah' He will bring light to you. Then, according to that light, flush out the very many ungodly leaders both religious and civil who lead you contrary to the obedient faith of YeHoVah'. Remember this, even the devil himself talks about God. It is he who does according to the way of God

that is approved.

An American Watchman,
Gregory A DeHart
