Increased Fertility Potential

"It's been a pleasure to work with MPTI.

The promptness of the reporting is an extremely valuable service for our particular needs.

Our clients expect that we send the best possible product, and having accurate and prompt testing assures us and them that this is being executed to our best ability.

MPTI has also been valuable in eliminating bacterial issues with both on-site evaluation and testing/identifying bacteria within our product."

- Fred Lance, Acuity Swine

You can't improve what is not measured

FUELING FERTILITY™

3rd Party Quality Check

Boar Studs
