

TROPHY HUNT IN BULGARIA

The country: Bulgaria is a country in southeastern Europe. Sofia is the capital. The country is bordered by Romania in the north, Serbia and Macedonia in the west, Greece and Turkey in the south, and the Black Sea in the east.

Climate: The climate in Bulgaria is temperate continental tending to Mediterranean. Annual precipitation is about 635 mm, but this varies. The four seasons, spring, summer, autumn and winter, are clearly differentiated.

Flights: There are daily flights to Sofia and Varna Airports from most European capitals. Some of the most popular Intercontinental flight connections, including those from the United States, are those via Frankfurt, Vienna, Paris, Amsterdam, London or Istanbul.

Visa: A visa for Bulgaria is not required for U.S. citizens, or EU passport holders. For more information please visit the following web page: <http://www.mfa.bg/en/pages/109/index.html>.

Rifle import permit: Hunters may bring their own firearms, but it is crucial to arrange all details with your outfitter in advance. All EU citizens who have valid EU firearms passports can enter Bulgaria with their own rifles and ammunition, without any additional requirements. If you do not possess such an EU firearms passport, an official firearms import permit must be obtained for entering the country with your personal hunting rifle and ammunition. The procedure takes 30 working days. You need to be able to provide all rifle and ammunition details as well as a valid hunting license from your home country.
