

MOUFLON SHEEP HUNT IN HUNGARY

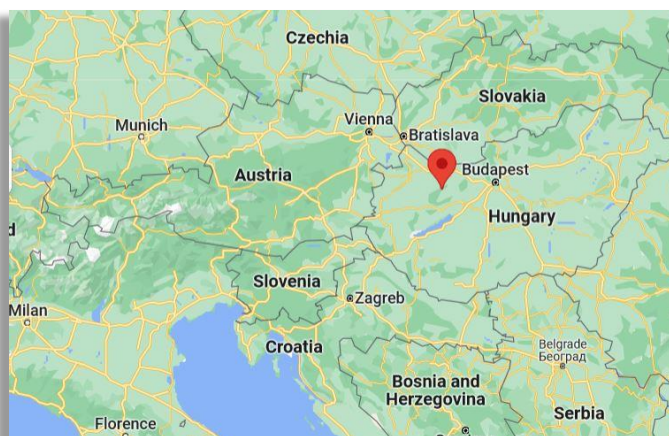

HUNTING AREA BAKONY FOREST

The area is located just 1,5-hour drive from Vienna or from Budapest near the city of Győr. We have here a 15.000 acres free range hunting area and a fenced area with a size of 5000 acres. The vegetation is Oak Forest, and we have agriculture fields next to the huge forest blocks.

The terrain is hilly and about 80 percent of the area is forest. In the area we have lot of grassing spots and lot of small creeks. We have a good road network here and hunting is top. In this area you can also hunt for fallow deer, red stag Common, Roedeer and Wild boar.

Every year we do many driven wild boar hunts there. Here the hunting is still a unique and grand adventure. It is truly a must visit location in Hungary, as there is nothing quite like it anywhere else.

Hunting Mouflon sheep

In this area it is possible to hunt the mouflon sheep all year round. Hunting for mouflon sheep is a tradition in our country and after all the decades we have a lot of experience on our side and wonderful memories on our minds. In our recent years we managed to hunt many mouflon sheep which made it to the SCI world record book.

For hunts on Mouflon, we recommend a minimum calibre of 7 mm. If you prefer to come without a firearm, we have a quality selection for hire. We have about 30 different rifles and guns in our safe, with top quality optics. Like: Blaser R93 / Swarovski scope or Mauser M03 / Swarovski scope etc.

The hunt for mouflon sheep is mostly done by spot & stalk, depending on the weather conditions it can also be done by car, because there are good roads in this area.

The trophy sizes in our area are ranging from 80cm up to 100cm+.
