

Work Author

Make every project successful.

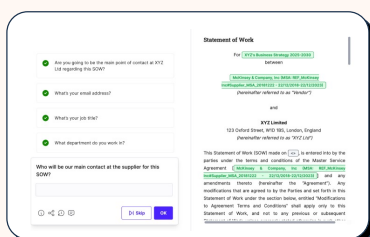

An all-in-one collaboration platform for writing the best project scopes and Statements of Work (SoW).

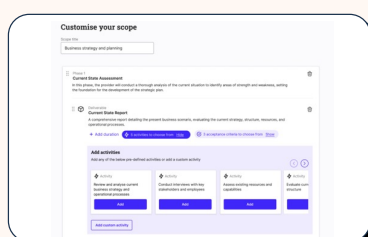

↑ OUTCOMES MILESTONES

↓ NO ACCEPTANCE CRITERIA

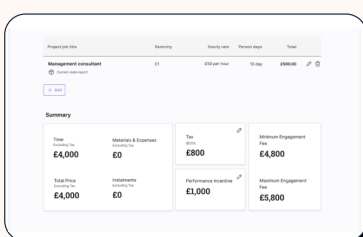

- 1 Generate a compliant SoW in real-time as you type.

- 2 Buy like the best with Guided Scoping® – 100's of best practice scope descriptions.

- 3 Price like a pro with automated tables, linked to deliverables and outcomes.

A collaborative platform that guides authors to the optimum scope and Statement of Work framework and enriches VMS modules for a seamless user experience.

Work Author benefits

☐ Without Deployed

- ⊗ Old templates used for complex services
- ⊗ Suppliers write all requirements = higher costs
- ⊗ Late engagement – every SoW is a surprise
- ⊗ Higher risk – less time to review work

☒ With Deployed

- ✓ Latest templates for services
- ✓ Choose from certified scopes for best practice
- ✓ Full visibility from first request
- ✓ Less risk – everyone collaborates in one place

- 1 Dynamic templates with pre-approved clauses and content for 8x faster time to sign

- 4 11% - 16% savings using agreed rates, connected MSAs, and robust commercials

- 2 10x project success based on comparing work drafted with Deployed versus manual

- 5 Simple change requests with digital document linking and traceability

- 3 Elimination of email back and forth with an all-in-one collaboration platform.

- 6 Pricing model based on templates, not % of spend – becomes cheaper the more it is used
