

## About Catur Coffee

Catur Coffee Company is an exporting coffee company, sourcing both specialty and commercial grade green bean coffees. Actively supporting the Sustainable Development Goals, Catur has strived to directly tackle 11 out of the 17 United Nation Sustainable Goals with a multitude of actions and initiatives.

Catur started their journey driving around Indonesia to visit partner farmers, and has now grew their footprint to 10 Indonesian regions, worked with more than 1,100 coffee farmer families, and 3 international partner distributors since 2022.

This company has nursed

**423**/5.748 seedlings

Nursery seedling progress: **7,36%**

## Project Progress

### Stay Updated

We're currently in the initial stages of our restoration project, diligently planting trees and revitalizing ecosystems. As we embark on this journey, we are actively documenting every step of the process to provide you with comprehensive project documentation. We will keep you informed and share the progress as it unfolds.
